Area code 808 The area code also serves Wake Island in the western Pacific Ocean. Area code 808 is a telephone area code in the North American Numbering Plan (NANP) for the Hawaiian Islands, comprising the Windward and the Leeward islands Area code 808 is a telephone area code in the North American Numbering Plan (NANP) for the Hawaiian Islands, comprising the Windward and the Leeward islands. The code was assigned on August 8, 1957, about two years before the statehood of Hawaii 7e2eded8cc

This was intended as a long-term solution, as northwest Oregon contains most of Oregon's population, and with it the great majority of Oregon's landlines and cell phones. However, by 2007, 541 was quickly exhausting central office codes, due to the proliferation... 7e2eded8cc When the American Telephone and Telegraph Company (AT&T) designed the first comprehensive North American telephone numbering plan in the 1940s, Manitoba was designated as a single numbering plan area (NPA) with area code 204. 7e2eded8cc Prior to October 2021, area code 808 had telephone numbers assigned for the central office code 988. In 2020, 988 was designated as a nationwide three-digit dialing code for the National Suicide Prevention Lifeline. This created a conflict for Hawaii's exchanges, all of which permitted seven-digit dialing. Therefore, area code 808 transitioned to ten-digit dialing on October 24, 2021. 7e2eded8cc

Area codes 310 and 424 The numbering plan area Area codes 310 and 424 are telephone area codes in the North American Numbering Plan (NANP) for the U. state of California. S. The numbering plan area includes the West Los Angeles and South Bay areas of Los Angeles County, a small portion of Ventura County, and Santa Catalina Island, which is located 26 miles (42 km) south. S. state of California. Area codes 310 and 424 are telephone area codes in the North American Numbering Plan (NANP) for the U 7e2eded8cc

Area codes 204, 431, and 584 Area codes 204, 431, and 584 are telephone area codes in the North American Numbering Plan (NANP) for the Canadian province of Manitoba. Area code 204 Area codes 204, 431, and 584 are telephone area codes in the North American Numbering Plan (NANP) for the Canadian province of Manitoba. Area codes 431 and 584 were assigned to the same numbering plan area (NPA) in 2012 and 2022, respectively, forming an overlay complex. Area code 204 is one of the nine original North American area codes assigned to Canada in 1947 7e2eded8cc

IBM 650 The 650 was a digit-serial machine, clocked at a frequency of 125 kHz, with a basic digit time of 8 μ s. two-digit decimal code. Almost 2,000 systems were produced, the last in 1962, and it was the first computer to make a meaningful profit. The first one was installed in late 1954 and the IBM 650 was the most popular computer of the 1950s. Since the 650 had a 10-digit The IBM 650 Magnetic Drum Data-Processing Machine is an early digital computer produced by IBM in the mid-1950s. It was the first mass-produced computer in the world 7e2eded8cc

== History == 7e2eded8cc The first telephone system was installed in Newfoundland in 1885, but domestic long-distance calls within the Dominion of Newfoundland could be placed on a limited basis only in 1921. The first long-distance call from Newfoundland to Canada was made on January 10, 1939, by using a shortwave radio link operated by the Canadian Marconi Company in Montréal. Shortwave radio also carried calls from St. John's to London, England. 7e2eded8cc In July 2010, the Canadian Radio-television and Telecommunications... 7e2eded8cc After Newfoundland's Confederation with the Dominion of Canada was enacted in 1949, the first cross-province long-distance call was placed from St. John's to Port aux Basques in 1949. 7e2eded8cc As of April 2025, area code 207 is not threatened by office code exhaustion until the first quarter of 2045. The deadline has

been extended several times due to technical changes and number pooling. 7e2eded8cc Massachusetts was the only New England state divided into multiple numbering plan areas (NPAs) when the American Telephone and Telegraph Company (AT&T) devised the first nationwide telephone numbering plan in 1947. Area code 617 was assigned to the more populous eastern portion, stretching from roughly the western end of Worcester County to Cape Cod and the South Coast. The rest of the state, roughly everything from Hardwick westward, was served by area code 413. 7e2eded8cc Area code 310 was created in a split from area code 213 on November 2, 1991. On January 25, 1997, area code 310 was split, creating area code 562 for the southeast portion of Los Angeles County and a large portion of Orange County. Area code 424 was added to the remaining numbering plan area on July 26, 2006, in an overlay plan, the first in California. 7e2eded8cc In July 1988, most of the western, northern, and southern portions of the old 617 territory, including Worcester County, the Merrimack Valley, the South Coast, and the Cape and Islands, were split off as area code 508. Permissive dialing of 617 continued... 7e2eded8cc

Area codes 617 and 857 state of Massachusetts, serving the city of Boston and several surrounding communities such as Brookline, Cambridge, Newton and Quincy. Medford, Bend, Ashland, Klamath Falls, The Dalles, Burns, Lakeview, and Pendleton, as well as the coastal region from Lincoln County to the California border

Telephone service to Alaska was provided from the contiguous United States via a terrestrial line to the town of Juneau since 1937, The Alaska submarine cable was opened for traffic on December 11, 1956, linking Port Angeles, Washington, with Ketchikan, Juneau, and Skagway in Alaska. Area code 503 was used for the entire state of Oregon until November 5, 1995, when the numbering plan area was reduced to just the populous northwestern corner of the state, including Portland and Salem, and area code 541 began service for the rest of the state. The dividing line ran east and south of Portland. In 2009, the Canadian Numbering Administrator forecast the proliferation of cell phones, particularly in and around Winnipeg, would exhaust the number of unallocated central office prefixes within a few years, even though the province has only 1.2 million people. An area code provides about 7.8 million telephone numbers, but Canada uses an allocation scheme that allots all ten thousand numbers of a central office prefix to each competitive local exchange carriers even for the smallest hamlets. Canada does not implement number pooling. It was announced in 1953 and in 1956 enhanced as the IBM 650 RAMAC with the addition of up to four disk storage units. The purchase price in... The 650 was offered to business, scientific and engineering users as a slower and less expensive alternative to the IBM 701 and IBM 702 computers, which were for scientific and business purposes respectively. It was also marketed to users of punched card machines who were upgrading from calculating punches, such as the IBM 604, to computers. Because of its relatively low cost and ease of programming, the 650 was used to pioneer a wide variety of applications, from modeling submarine crew performance to teaching high school and college students computer programming. The IBM 650 became highly popular in universities, where a generation of students first learned programming. Marcus Mariota, quarterback for the Las Vegas Raiders football team and 2014 Heisman Trophy winner, had a special face mask honoring the 808 area code while playing with the University of Oregon.

Area code 907 S. S. Area code 907 is the sole telephone area code in the North American Numbering Plan (NANP) for the U. state of Alaska. Alaska was assigned its area code Area code 907 is the sole telephone area code in the North American Numbering Plan (NANP) for the U. state of Alaska 7e2eded8cc

The Alaska numbering plan area is geographically the largest of any in the United States. It is the second-largest in the NANP, and on the entire North American continent behind 867, which serves Canada's northern territories. Because the Aleutian Islands of Alaska cross longitude 180, the Anti-Meridian, 907 may be considered to be both the farthest west and the farthest east of all area codes in the NANP. Due to Alaska's low population, 907 is one of only twelve remaining area codes serving an entire state. It is not projected to be exhausted until after 2049. 7e2eded8cc The small southeastern community of Hyder is not served by the area code, but by the Canadian... 7e2eded8cc == History == 7e2eded8cc The incumbent local exchange carriers for the numbering plan area are Bell Canada, Bell Aliant, Telus, as well as T  l  bec and other independent companies. From 1992 to 1997, Northwestel was also an incumbent carrier in 819, as it included former Bell Canada areas in the Northwest Territories. 7e2eded8cc In 1949, Newfoundland was added in an expansion of... 7e2eded8cc When the first comprehensive continental telephone numbering plan was created in 1947, establishing the original North American area codes, Newfoundland had not yet become of part of Canada. No provisions had been made to include Newfoundland in the numbering plan. The Newfoundland telephone system was entirely manual, and dial telephones came to St. John's only in 1948. 7e2eded8cc == History == 7e2eded8cc Slightly over 1.4 million people live in Hawaii. Despite the state's rapid growth, and the proliferation of mobile numbers (particularly in Oahu, which includes Honolulu), a single area code is projected to be enough to serve the state until at least the third quarter of 2035. 7e2eded8cc
