Kletting, and built between 1912 and 1916. The building was added to the National Register of Historic Places in 1978. Beginning in 2004, the capitol underwent a major restoration and renovation project. The project added two new buildings to the complex while restoring many of the capitol's public spaces to their original appearance. One of the largest projects during the renovation was the addition of a base isolation system which will allow the building to survive as much as a 7.3 magnitude earthquake. After completion of the renovations, the building was rededicated and resumed normal operation in January 2008. 5731653174
