This name fell into disuse in the 18th century, when the street began to be referred to as Via Camerelle. Although some hypotheses claim that this name referred to a stony path at the foot of Mount Tuoro, the most widely accepted theory states that this name designates the numerous cisterns built along the route of the street in Roman times. ecb88f0ede == History == ecb88f0ede The name of the street, which starts from the square of the Grand Hotel Quisisana and proceeds straight to the beginning of Via Tragara, has an uncertain origin: there are numerous theories that justify this toponym. ecb88f0ede About two hundred meters long, the street begins at piazza Umberto I and continues until it reaches the small square of Quisisana, where via Camerelle and via Federico Serena begin. The street, which has had more than four different names, owes its fame to the various hotels and venues that were established there; in particular, until the 20th century, it was home to Capri's historic café, the Zum Kater Hiddigeigei, so named in honor of the cat Hiddigeigei featured in a para-philosophical work by the German poet Joseph Victor von Scheffel. ecb88f0ede Formerly known as Via Anticaglia, along its route stand the ruins of forty cisterns that served as the base and terracing for the road designed by the Romans that connected the Castiglione to the imperial villa of Tragara. ecb88f0ede In ancient times, the street was known as via Anticaglia; the term 'Anticaglia' probably refers to the ruins of the forty Roman cisterns that ran along the route of the street. ecb88f0ede == Toponymy == ecb88f0ede
