Depending on the properties... Maroochydore is a major commercial area of the Sunshine Coast with most shopping precincts located in the central business district. It is home to the Sunshine Plaza shopping centre and the Sunshine Coast's major bus interchange for Translink services operated by Kinetic Sunshine Coast. Maroochydore is also a venue of major surf sport carnivals, and is a popular holiday point from which to travel the rest of Queensland. The sanctuary was opened in 1947 by Alex Griffiths as the Currumbin Bird Sanctuary, originally intended to divert local lorikeets from damaging his flower crops. It has since become a major nature-based tourist attraction, known for daily lorikeet feeding and one of the largest collections of Australian native species in the world. The site includes a miniature railway (operating since 1964), a wildlife hospital, and newer exhibits such as the Lost Valley precinct, which opened in 2017. Currumbin Wildlife Sanctuary is significant for its role in the evolution of nature-based tourism in Queensland, having grown from a local lorikeet-feeding attraction established by Alex Griffiths in 1947 into an internationally recognised site and one of the earliest surviving tourist facilities... Brake pads convert the kinetic energy of a vehicle to thermal energy through friction. Two brake pads are contained in the brake with their friction surfaces facing the rotor. When the brakes are hydraulically applied, the caliper clamps or squeezes the two pads together onto the spinning rotor to slow and stop the vehicle. When a brake pad heats up due to contact with the rotor, it transfers small amounts of its friction material onto the disc, leaving a dull grey coating on it. The brake pad and disc (now both having the friction material), then "stick" to each other, providing the friction that stops the vehicle. A student in the town of Tomoeda, Japan, Sakura Kinomoto was originally nine years old when she began her journey as the Cardcaptor, an unintentional student of the mystical deceased magus Clow. Breaking the seal on his spellbook, she released several powerful spirits from their prison in the form of tarot cards, which then went out to cause chaos and havoc in her hometown. Working alongside the two familiars of the book, Cerberus and Yue, Sakura set out to capture each of the cards and restore their seals, gaining their abilities for her own use in the process. It took four years, but Sakura succeeded in capturing, and

sealing, each of the Clow Cards, as well as transforming them into her own creation, Sakura Cards, further increasing her abilities with them.

== Difference from running == In disc brakes, there are usually two brake pads per disc rotor, they both function together. These are held in place and actuated by a caliper affixed to the wheel hub or suspension upright. Racing calipers, however, can utilize up to six pads, with varying frictional properties in a staggered pattern for optimum performance. Walking is a multi-faceted human activity. Humans walk to school and to work, or may have a job that entails walking; it is a form of recreation and a sport; it is a low-impact type of exercise, with possible health benefits; it is walking a dog and beachcombing; it can be part of a spiritual practice.

The area that became the Gold Coast was originally inhabited by the indigenous Yugambeh people. The city grew from a collection of small townships, the earliest being Nerang in 1865. From the 1920s onwards, tourism led to significant economic growth in the region, and by 1959 the Gold Coast was declared... He built his artworks on cybernetic theories of control and feedback primarily based on the ideas of Norbert Wiener. Wiener's work suggested to Schöffer an artistic process in terms of the circular causality of feedback loops that he used in a wide range of art genres. His career spanned painting, sculpture, architecture, urbanism, film, theatre, television and music. The quest for dematerialisation of the artwork and the pursuit of movement and dynamics became central themes of his work. He worked with the immaterial media space, time, light, sound and climate that he called the five topologies. The suburb has many high-rise apartment buildings and a wide surf beach. The feature of the heart of the suburb is Cavill Mall, which runs through the shopping and entertainment precinct. Cavill Avenue, named after Jim Cavill, an early hotel owner, is one of the busiest shopping strips in Queensland, and the centre of activity for night life. One of the features of the area is the Surfers Paradise Meter Maids designed to build goodwill with tourists.
