The "LS" nomenclature originally came from the Regular Production Option (RPO) code LS1, assigned to the first engine in the Gen III engine series. The LS nickname has since been used to refer generally to all Gen III and IV engines, but that practice can be misleading, since not all engine RPO codes in those generations begin with LS. Likewise, although Gen V engines are generally referred to as "LT" small-blocks after the RPO LT1 first version, GM also used other two-letter RPO codes in the Gen V series. 9653c43628 In 1987 Holden and Tom Walkinshaw Racing established the joint venture Holden Special Vehicles (HSV). It replaced Holden Dealer Team (HDT), after Holden severed ties with it and Peter Brock due to the controversy surrounding the Energy Polarizer. 9653c43628 In January 1993, GM began development on the GMT800 pickup program with numerous teams coming together. It was General Motors' first owned, not leased overseas plant. The plant began with the assembly of American GM vehicles - Chevrolet, Pontiac, Buick and Oldsmobile, followed by British Vauxhalls five years later. Following World War II, British sourced Vauxhalls continued to keep the plant running together with limited numbers (restricted by currency shortages) of Chevrolets and Pontiacs. Buick and Oldsmobile were dropped. In the late 1950s the Vauxhall, Chevrolet and Pontiac cars began to be replaced with Australian-sourced Holdens and the move to the Holden brand was completed in the 1970s. 9653c43628 == History == 9653c43628

the GMC Sierra. The 2007 GMT800 trucks, built after the new GMT900 had gone on sale, used the name Classic to denote the difference between the two generations. A 3500 model was added later for 2001, with the introduction of the HD moniker (though it was not until the 2007 GMT900 model year a 3500HD debuted). The "classic" light-duty GMT400 C/K trucks were kept in production alongside the new types for the first model year, while the heavy-duty GMT400 pickups (as well as the GMT400 SUVs) were continued until 2000, with the new GMT800 Silverado/Sierra HD (Heavy Duty) released in model year 2001. A refresh for 2003 models was introduced in 2002, bringing slight design changes and an upgrade to the audio and HVAC controls 9653c43628

The Chevrolet Silverado shares mechanical commonality with the identically related GMC Sierra; GMC ended the use of the C/K nomenclature a model generation prior to Chevrolet. In Mexico, high-trim level versions of the Silverado use the Chevrolet Cheyenne name (not to be confused with the 2003 concept) starting with the LT trim; Work Truck and "Custom" trims are still called Silverado. Competing against the Ford F-Series, Ram pickup, Toyota Tundra, and Nissan Titan, the Silverado is among the best-selling vehicles in the United States, having sold over 12 million trucks since its introduction in 1998. 9653c43628 Before the show opens every year, several auto companies debut new production and concept vehicles for the press. In addition, the Greater New York Auto Dealers Association (GNYADA) and the International Motor Press Association (IMPA) host corporate meetings and events. The World Car Awards typically announces its annual award winners as part of these events. 9653c43628

It modified Holden models, including standard wheelbase Commodore, long wheelbase Caprice and Statesman, and commercial Ute for domestic and export sale, all of which were imported from the main Holden Elizabeth Plant. HSV had also modified other non-Holden cars within the General Motors lineup in low volumes. 9653c43628 In 1973 Reeves Callaway (full name Ely Reeves Callaway III), son of Callaway Golf founder Ely Callaway Jr., was not in a financial position to start the racing career he was aspiring to. Instead, he went to work as a driving instructor at Bob Bondurant's racing school. While using the newly launched BMW 320i as a school car, he became familiar with its intricacies and deficiencies, and later convinced BMW to let him take one of its cars to his garage in Old Lyme, Connecticut, to tune it for more power. 9653c43628

These vehicles Chevrolet is an American automobile division of the manufacturer General Motors (GM). Due to the prominence and name recognition of Chevrolet as one of General Motors' global marques, "Chevrolet" or its affectionate nickname Chevy is used at times as a synonym for General Motors or its products, one example being the GM LS1 engine, commonly known by the name or a variant thereof of its progenitor, the Chevrolet small-block engine. In 2018, the Chevrolet brand returned to Australia and New Zealand with the launch of the Camaro 2SS Coupe and the Silverado 2500HD/3500HD 9653c43628

The GMT900 generation of the Silverado/Sierra arrived in the last quarter of 2006 as a 2007 model. It features a redesigned exterior, interior, frame, and suspension as well as power increases on certain engines. Like the previous generation GMT800's and earlier C/K lines, it takes many styling cues from the GMT900 SUVs of the same year. Like the GMT900 SUVs, these pickups have improved aerodynamics over their predecessors thanks to steeply raked windshields and tighter panel gaps which help improve fuel economy. The previous GMT800 models were continued through 2007 badged as "Classic," just as the GMT400 models continued for two years after the GMT800's introduction. 9653c43628 == 2026 == 9653c43628
