

Folding Chairs Camping Chairs

List of chairs Folding chairs The following is a partial list of chairs with descriptions, with internal or external cross-references about most of the chairs. For other chair-like types (like bench, stool), see Seats. Folding chairs may be designed to stack on top of each other when folded and may come with special trolleys to move stacks of folded chairs

Director's chair The back is usually low and the chair usually has armrests. The seat and scissors members work together to support and distribute the sitter's weight so that the seat is comfortably taut. A director's chair is a lightweight chair that folds side-to-side with a scissors action. List of chairs Wikimedia Commons has media related to Film director's chairs. Directors Chairs are now manufactured in Tennessee by The Lord's Table, Inc. The seat and back are made of canvas or a similar strong fabric which bears the user's full weight and can be folded; the frame is made of wood, or sometimes metal or plastic. Victor Papanek describes this chair as an excellent design in his book *Design for the Real World* as it is simple and ideally suited to its function, being "extremely comfortable to sit in for long periods of time". The stereotypical image of a movie director on location includes one of these chairs, hence the name. The design goes back to coffer-makers' chairs of the 15th century and eventually to the Roman curule chair

Butterfly chair [permanent dead link] "J. The sling was originally leather, but can also be made from canvas or other materials. gov. "Ferrari Hardoy The butterfly chair, also known as a BKF chair or Hardoy chair, is a style of chair featuring a metal frame and a large sling hung from the frame's highest points, creating a suspended seat. uspto. Retrieved 2018-02-16. Fenby, Folding Chair". The frame of the chair is generally painted black. The design is popular for portable recreational

seating. 12 July 1881. pdfpiw. Design School. B. Retrieved 2022-02-09 dc4e7ea471

European chair design developed numerous regional and period styles, particularly in France and England during the 17th and 18th centuries. Among the Ashanti people of Ghana, chairs and stools were associated with rank and ceremonial use. The 19th century brought new stylistic movements and innovations such as Michael Thonet's bentwood No. 14 chair, while the 20th century saw increasing use of technology in chair construction and of materials such as metal, plywood, and moulded plastic, as well as the development of ergonomic designs. dc4e7ea471 == Ancient Egyptian chairs == dc4e7ea471 Chairs vary in design. An armchair has armrests fixed to the seat; a recliner is upholstered and features a mechanism that lowers the chair's back and raises into place a footrest; a rocking chair has legs fixed to two long curved slats; and a wheelchair has wheels fixed to an axis under the seat. dc4e7ea471 == Description == dc4e7ea471

Wheelchair Folding chairs are generally low-end designs, whose predominant advantage is being able to fold, generally by bringing A wheelchair is a mobilized form of chair using two or more wheels, a footrest, and an armrest usually cushioned. major varieties, folding or rigid. Wheelchairs provide mobility, postural support, and greater independence for people who cannot walk or who have difficulty walking, enabling them to move around, participate in everyday activities, and live life on their own terms. It is used when walking is difficult or impossible due to illnesses, injury, disabilities, or age-related health conditions dc4e7ea471

Wheelchairs come in a wide variety of formats to meet the specific needs of their users. They may include specialized seating adaptations, and individualized controls, and may be specific to particular activities, as with sports wheelchairs and beach wheelchairs. The most widely recognized distinction is between motorized wheelchairs, where propulsion is provided by batteries and electric

motors, and manual wheelchairs, where the propulsive force is provided either by the wheelchair user or occupant pushing the wheelchair by hand (self-propelled), by someone else pushing from the rear using the handles, or pushing from the side using a handle attachment. dc4e7ea471 == 0-9 == dc4e7ea471

Tripolina It was invented by Joseph B. It was invented by Joseph B. Fenby and patented in 1877 in The Tripolina is a folding chair made out of wood with metal swivel joints and animal hide. The Tripolina is a folding chair made out of wood with metal swivel joints and animal hide. Fenby and patented in 1877 in England and in 1881 in the United States, respectively dc4e7ea471

After the Tripolina's appearance at the Saint Louis trade show in 1904, the design was licensed to European manufacturers and to Gold Medal Inc. in Wisconsin, USA, a company that produced military, camping and resort furniture throughout the 20th century. In Europe, the Tripolina chair was produced before World War II, among others, by the firm of Viganò in Tripoli, Libya, for the expatriate Italian market as a camping chair of great stability in the sand and made from local wood and camel or cow hide. The Italian firm of Viganò clearly stamped their products on the rear of the hides with their large "Paolo Viganò Tripoli" oval seal. The hide is nowadays often replaced by canvas or other materials. dc4e7ea471

Folding table Many folding tables are made of lightweight materials to further increase portability. A folding table is a type of folding furniture, a table with legs that fold up against the table top. This is intended to make storage more convenient A folding table is a type of folding furniture, a table with legs that fold up against the table top. This is intended to make storage more convenient and to make the table more portable dc4e7ea471

== History == dc4e7ea471 Many modern styles of folding chairs can be stored in a stack, in a row, or on a cart. They also may be combined or seen with a folding table. dc4e7ea471 == History == dc4e7ea471 The design has inspired

other chairs, the famous BKF Chair for instance, also known as Butterfly chair. It utilizes curved metal instead of wood for its structure, and the seat cover is composed of four separate pieces. A camping stool is similar to a camping chair, but lacks back support. == Gallery == The modern American style director's chairs were introduced by the Gold Medal Camp Furniture Company, founded, owned and operated by William Gittings and family. In 1892, the Gold Medal Classic design won an award for excellence in casual furniture design in the lead-up to the 1893 World's Fair Columbian Exposition in Chicago... The Butterfly chair was designed in Buenos Aires, Argentina, in 1938 by the architects Antonio Bonet, Juan Kurchan and Jorge Ferrari Hardoy, who were working with Le Corbusier's studio, and who formed the architectural collective Grupo Austral in Buenos Aires. The chair was developed for an apartment building they designed in Buenos Aires. Chair comes from the early 13th-century English word chaere, from Old French chaire ("chair, seat, throne"), from Latin cathedra and ultimately Greek καθέδρα kathedra ("seat, throne").

Chair in chair construction with such things as all-metal folding chairs, metal-legged chairs, the Slumber Chair,[citation needed] moulded plastic chairs and A chair (/ˈtʃeər/) is a type of seat, typically designed for one person and consisting of one or more legs, a flat or slightly angled seat, and a back-rest. It may be made of wood, metal, or synthetic materials, and may be padded or upholstered in various colors and fabrics
