Matt Wildman, a cat behaviorist, explained that sisal or corrugated cardboard surfaces are favored by most cats. Other kinds of scratching posts are more elaborate, with several levels of horizontal platforms for climbing and cozy cave-like areas where cats may hide. Very tall ones are often called "cat trees." tinsel, apples, wafers, and confectionery". Moravian Christians began to illuminate Christmas trees with candles, which were often replaced by Christmas lights after the advent of electrification. Today, there is a wide variety of Christmas ornaments, such as garlands, baubles, tinsel, and candy canes. An angel or star might be placed at the top of the tree to represent the angel Gabriel or the Star of Bethlehem, respectively, from the Nativity. Edible items such as gingerbread, chocolate, and other sweets are also popular and are tied to or hung from the tree's branches with ribbons. The Christmas tree originated as a custom of the Lutheran Churches and only in 1982 did the Catholic Church erect the first Vatican Christmas Tree. 2e85395b02 == Species == 2e85395b02
