

5 Gallon Bucket Toilet Seat

Protect and Survive had its origins in civil defence leaflets dating back to 1938, titled The Protection of Your Home Against Air Raids. These advised the homeowner on what to do in the event of air attack. This evolved as the... 9309f240ea

Privy midden (a dump for waste). e. a dump for The privy midden (also midden closet) was a toilet system that consisted of a privy (outhouse) associated with a midden (or middenstead, i. They were replaced eventually by pail closets and flush toilets. Similar systems (pit latrines) still exist in some developing countries, but the term "privy midden" is now an archaism. A typical comment was that they were of "most objectionable construction" and "usually wet and very foul". The privy midden (also midden closet) was a toilet system that consisted of a privy (outhouse) associated with a midden (or middenstead, i. e. They were widely used in rapidly expanding industrial cities such as Manchester in England, but were difficult to empty and clean 9309f240ea

Flush toilets are a type of plumbing fixture, and usually incorporate a bend called a trap (S-, U-, J-, or P-shaped) that causes water to collect in the toilet bowl – to hold the waste and act as a seal against noxious sewer gases. Urban and suburban flush toilets are connected to a sewerage system that conveys wastewater to a sewage treatment plant; rurally, a septic tank or composting system is mostly used. 9309f240ea == Origins == 9309f240ea Originally, the campaign was only intended to be disseminated if it was felt that war with (and thus nuclear attack by) the Soviet Union was increasingly likely, but the matter provoked such intense public interest that the pamphlet element of Protect and Survive was published, in slightly amended form, in 1980. Due to its controversial subject, and the nature of its publication, the cultural impact of Protect and Survive was greater and longer-lasting than most public information campaigns and it has remained "among the best-known cultural artefacts of nuclear preparedness". 9309f240ea

Urine-diverting dry toilet A urine-diverting dry toilet (UDDT) is a type of dry toilet with urine diversion that can be used to provide safe, affordable sanitation in a variety A urine-diverting dry toilet (UDDT) is a type of dry toilet with urine diversion that can be used to provide safe, affordable sanitation in a variety of contexts worldwide. This dry excreta management system (or "dry sanitation" system) is an alternative to pit latrines and flush toilets, especially where water is scarce, a connection to a sewer system and centralized wastewater treatment plant is not feasible or desired, fertilizer and soil conditioner are needed for agriculture, or groundwater pollution should be minimized. The UDDT is an example of a technology that can be used to achieve a sustainable sanitation system. While dried feces and urine harvested from UDDTs can be and routinely are used in agriculture (respectively, as a soil amendment and nutrient-rich fertilizer—this practice being known as reuse of excreta in agriculture), many UDDT installations do not apply any sort of recovery scheme. The separate collection of feces and urine without any flush water has many advantages, such as odor-free operation and pathogen reduction by drying 9309f240ea

Protect and Survive sanitation; the buckets or other containers were to be covered and fitted with bag liners, and if possible a chair should be improvised as a toilet seat. Had it been activated, the campaign would have comprised a pamphlet, newspaper inserts, public information films, and

radio broadcasts. A disinfectant Protect and Survive was a British public information campaign concerning civil defence measures. Produced by the British government between 1974 and 1976, it intended to advise the public on how to protect themselves during a nuclear attack 9309f240ea

The opposite of a flush toilet is a dry... 9309f240ea Although the more advanced water closet (flush toilet) was popular in wealthy homes, the lack of an adequate water supply and poor sewerage meant that in 19th-century England, in working-class neighbourhoods, towns and cities often chose dry conservancy methods of waste disposal. The pail closet was an evolution of the midden closet (privy midden), an impractical and unsanitary amenity considered a nuisance to public health. The pail system was popular in France and England, particularly in the historic Lancashire town of Rochdale, from which the system commonly took its name. The pail closet was not without its own problems; if the... 9309f240ea

Parwan Detention Facility one of those cages was a makeshift toilet, the same type of toilet that the soldiers used, which was a 50-gallon drum, halved with diesel fuel put in The Parwan Detention Facility (also called Detention Facility in Parwan or Bagram prison) is Afghanistan's main military prison. Bush administration. S. during the George W. The Parwan Detention Facility, which housed foreign and local combatants, was maintained by the Afghan National Army. Situated next to the Bagram Air Base in the Parwan Province of Afghanistan, the prison was built by the U 9309f240ea

== Design and placement == 9309f240ea Once known as the Bagram Collection Point, initially it was intended to be a temporary facility. Nevertheless, it was used longer and handled more detainees than the U.S. Guantanamo Bay detention camp in Cuba. As of June 2011, the Parwan detention facility held 1,700 prisoners; there had been 600 prisoners under the Bush administration. None of the prisoners received prisoner of war status. 9309f240ea The three-story cellhouse included the four main cell blocks - A-block to D-block - the warden's office, visitation room, the library, and the barber shop. The prison cells typically measured 9 feet (2.7 m) by 5 ft (1.5 m) and 7 ft (2.1 m) high. The cells were primitive and lacked privacy. They were furnished with... 9309f240ea Once the basic bucket toilet has been "improved", it evolves into a number of different systems, which are more correctly referred to as either container-based sanitation systems, composting toilets, or urine-diverting dry toilets. 9309f240ea

Charles Ng He is believed to have raped, tortured, and murdered between eleven and twenty-five victims with his accomplice Leonard Lake at Lake's cabin in Calaveras County, California, 60 miles (96 km) from Sacramento, between 1983 and 1985. S. , Ng was extradited to California, tried, and convicted of eleven murders. After his arrest and imprisonment in Canada on robbery and weapons charges, followed by a lengthy dispute between Canada and the U. He is currently on death row at California Medical Facility. 2 imp gal) buckets. One contained envelopes with names and victims' identifications Charles Chi-tat Ng (born Ng Chi-tat) (Chinese: 吳志達; born 24 December 1960) is a Hong Kong-born convicted serial killer who committed numerous crimes in the United States. hand-drawn "treasure map", leading them to two buried five-US-gallon (19 L; 4 9309f240ea

As a teenager, he was described as a troubled loner and was expelled from several schools. After his arrest for shoplifting at age 15, he went, at his father's insistence, to Bentham Grammar School, a boarding school in North Yorkshire, England. Not long after arriving, Ng was expelled for stealing... 9309f240ea == Early life == 9309f240ea The United States Department of Justice

acquired the United States Disciplinary Barracks, Pacific Branch, on Alcatraz on October 12, 1933. The island became adapted and used as a prison of the Federal Bureau of Prisons in August 1934 after the buildings were modernized and security increased. Given this high security and the island's location in the cold waters and strong currents of San Francisco Bay, prison operators believed Alcatraz to be escape-proof and America's most secure prison. 9309f240ea The Portland Loo has features such as blue lighting said to make it difficult for intravenous drug users to find a vein for injection. After Portland Loos were installed in Chico, California, the Chico Enterprise-Record editorial board summarized what has worked and what didn't: they credited human attendants as the key to successful locations such as the attended locations in Los Angeles and San Francisco. 9309f240ea

Flush toilet A flush toilet (also known as a flushing toilet, water closet (WC); see also toilet names) is a toilet that disposes of human waste (i. , urine and feces) by collecting it in a bowl and then using the force of water to channel it ("flush" it) through a drainpipe to another location for treatment, either nearby or at a communal facility. Flush toilets can be designed for sitting or squatting (often regionally differentiated). e. Porcelain (sometimes with vitreous china) is a popular material for these toilets, although public or institutional ones may be made of metal or other materials. , urine and feces) A flush toilet (also known as a flushing toilet, water closet (WC); see also toilet names) is a toilet that disposes of human waste (i. e. Most modern sewage treatment systems are also designed to process specially designed toilet paper, and there is increasing interest for flushable wet wipes 9309f240ea

Bucket toilet Usually, feces and urine are collected together in the same bucket, leading to odor issues. A bucket toilet is a basic form of a dry toilet whereby a bucket (pail) is used to collect excreta. Usually, feces and urine are collected together in A bucket toilet is a basic form of a dry toilet whereby a bucket (pail) is used to collect excreta. The bucket may be situated inside a dwelling, or in a nearby small structure (an outhouse) 9309f240ea

Charles Ng was born as Ng Chi-tat in British Hong Kong, the youngest of three children and only son of a wealthy Hongkonger executive and his wife. As a child, Ng was harshly disciplined and abused by his father. 9309f240ea

Pail closet This bucket (pail) A pail closet or pail privy or dirt closet was a room used for the disposal of human excreta, under the "pail system" (or Rochdale system) of waste removal. The contents, known euphemistically as night soil, would either be incinerated or composted into fertiliser. meant "toilet" in one usage) was a small outhouse (privy) which contained a seat, underneath which a portable receptacle was placed. The "closet" (a word which had long meant "toilet" in one usage) was a small outhouse (privy) which contained a seat, underneath which a portable receptacle was placed. This bucket (pail), into which the user would defecate, was removed and emptied by the local authority on a regular basis 9309f240ea

== Applications == 9309f240ea In 2014, marketing for the restroom was transferred from the city of Portland to Madden Fabrication. 9309f240ea Treatment of inmates at the facility came under scrutiny after two Afghan detainees died in the 2002 Bagram torture and prisoner abuse case. Their deaths were classified as homicides, and prisoner abuse charges were made against seven American soldiers. Concerns about lengthy detentions there prompted comparisons to U.S. detention centers in Guantanamo Bay in Cuba and Abu Ghraib in Iraq. Part of the internment... 9309f240ea

Portland Loo It is manufactured, sold, and marketed by the Portland-based manufacturer Madden Fabrication under license from the city, for \$96,000 each. Since the first unit was installed, additional 54 units have been purchased by February 2018, mostly by 20 other cities and 15 of them within the city of Portland. 1. The first unit was installed in the Old Town Chinatown neighborhood in Portland in 2008. 28 gallons of water per flush, the toilets are also comparable to sustainable low-flush toilets that use anywhere between 1.1 to 1.6 gallons of water The Portland Loo is a type of single-occupancy public toilet designed by the city of Portland, Oregon 9309f240ea

== Development and improvement == 9309f240ea There are several types of UDDTs: the single vault type which has only one feces vault; the double vault type which has two feces vaults... 9309f240ea Where people do not have access to improved sanitation – particularly in low-income urban areas of developing countries – an unimproved bucket toilet may be better than open defecation. They can play a temporary role in emergency sanitation, e.g. after earthquakes. However, the unimproved bucket toilet may carry significant health risks compared to an improved sanitation system. The bucket toilet system, with collection organised by the municipality, used to be widespread in wealthy countries; in Australia it persisted into the second half of the 20th century. 9309f240ea

Alcatraz Federal Penitentiary 01 km) off the coast of San Francisco, California, United States. 1 m) high. Army military prison. 7 m) by 5 ft (1. They were furnished with a bed, desk, washbasin, a toilet on the United States Penitentiary, Alcatraz Island, also known simply as Alcatraz (English: , Spanish: [alka'tras] "the gannet") or The Rock, was a maximum security federal prison on Alcatraz Island, 1. S. The site of a fort since the 1850s, the main prison building was built from 1910 to 1912 as a U. 25 miles (2. The cells were primitive and lacked privacy. 5 m) and 7 ft (2 9309f240ea
