Christmas Day (including its vigil, Christmas Eve), is a Festival in the Lutheran Church, a Solemnity in the Roman Catholic Church, and a Principal Feast of the Anglican Communion. Other Christian denominations do not rank their feast days but place importance on Christmas Eve/Christmas Day, as with other Christian feasts like Easter, Ascension Day, and Pentecost. As such, for Christians, attending a Christmas Eve or Christmas Day church service plays an important part in celebrating the Christmas season. Christmas and Easter...

According to Alasdair Pinkerton, an expert in human geography at Royal Holloway, University of London, the term is first mentioned in Domesday Book (1086), to describe parcels of land that were just beyond London's city walls. The Oxford English Dictionary contains a reference to the term dating back to 1320, spelled nonesmanneslond, to describe a territory that was disputed or involved in a legal disagreement. The same term was later used as the name for the piece of land outside the north wall of London that was assigned as the place of execution. The term is also applied...

The traditional Christmas narrative recounted in the New Testament, known as the Nativity of Jesus, says that Jesus was born in Bethlehem, in accordance with messianic prophecies. When Joseph and Mary arrived in the city, the inn had no room, and so they were offered a stable where the Christ Child was soon born, with angels proclaiming this news to shepherds, who then spread the word.

Houseplant cacti, including the prickly pear) Zygocactus (Christmas cactus) Gymnocalycium mihanovichii (chin cactus) Ceropegia woodii (string of hearts) Crassula A houseplant, also known as a pot plant, potted plant, or indoor plant, is an ornamental plant cultivated indoors for aesthetic or practical purposes. These plants are commonly found in homes, offices, and various indoor spaces, where they contribute to the ambiance by adding natural beauty and improving air quality. Most houseplants are tropical or semi-tropical species, as they thrive in the warm, humid conditions often found indoors. Many of them are epiphytes (plants that grow on other plants), succulents (which store water in their leaves), or cacti, which are particularly well-suited to indoor environments due to their low maintenance requirements
