

Used Ford Transit Connect

Ford Transit Custom Similar to other Transit variants, the passenger versions were branded Tourneo Custom. The Ford Transit Custom is a mid-sized, front wheel drive van produced by Ford Europe since 2012. It marked a split in the Transit range, with the Custom The Ford Transit Custom is a mid-sized, front wheel drive van produced by Ford Europe since 2012. It marked a split in the Transit range, with the Custom being the smaller version and the Ford Transit being the larger 69d1bd4e8d

The first and second-generation Transit Connect has been imported to North America from the 2010 model year. To circumvent the 25% "chicken tax" on imported light trucks, all examples have been imported as passenger vans, with cargo vans converted to the intended configuration after their importation. In the region, the Transit Connect does not have a direct

predecessor; the closest vehicle to its size was the standard-length Ford Aerostar cargo van, which ceased production in 1997. The first product of the merged Ford of Europe, the Transit was originally marketed in Western Europe and Australia. By the end of the twentieth century, it was marketed nearly globally with the exception of North America until 2015 when it replaced the Ford E-Series van. Upon its introduction in North America, the Transit quickly became the best-selling van of any type in the United States, minivan sales included. Production began in December 2010, and full capacity was expected to be reached in April 2011 to produce between 600 and 700 units a year. The Transit Connect Electric was produced using a vehicle glider at a Ford Motor Company facility in Kocaeli, Turkey and then shipped to Azure Dynamics U.S. upfitter, AM General in Livonia, Michigan, where the Force Drive™ electric drive train and other components...

Azure Transit Connect Electric Due to financial difficulties, production of the electric van was stopped in March 2012, as the company filed for bankruptcy protection in the Supreme Court of British Columbia. The Azure Dynamics

Transit Connect Electric is an all-electric van developed as a collaboration between Azure Dynamics and Ford Motor Company, but Azure The Azure Dynamics Transit Connect Electric is an all-electric van developed as a collaboration between Azure Dynamics and Ford Motor Company, but Azure was the official manufacturer of record 69d1bd4e8d

Connect Transit In 2025, the system had a ridership of 2,285,700, or about 8,500 per weekday as of the first quarter of 2026. Connect Transit, is the name that Bloomington-Normal Public Transit System ,is doing business as, and is the primary public transit provider Bloomington-Normal Connect Transit, is the name that Bloomington-Normal Public Transit System ,is doing business as, and is the primary public transit provider Bloomington-Normal, Illinois. The system consists of 16 fixed routes including the Illinois State University Redbird Express 69d1bd4e8d

Ford Courier For 2014, the stand-alone Courier name was withdrawn, but returned as the Transit Courier, the smallest Ford Courier is a model nameplate used by Ford since the early 1950s. The Courier nameplate was also used by Ford for a series of compact pickup trucks (produced by Mazda) and would also see use by Ford of Europe denoting a Fiesta-based panel van. Ford Brazil used the nameplate for a Fiesta-based coupe utility pickup marketed across Latin America. The Courier moniker has been used on a variety of vehicles all around the world since it was first used in North

America for a sedan delivery. was replaced by the Ford Transit Connect in 2002 69d1bd4e8d

The first Transit Bus was a prototype that Ford loaned to Detroit Street Railways (DSR), of Detroit, Michigan, in June 1936. After DSR placed an order for 500, Ford began series production, and deliveries began on November 27, 1936 (which Ford considered to be within its "1937" model year). The front-engine or forward-control, design used a 157-inch (400 cm) chassis, Ford model 70, and had a 141-inch (360 cm) wheelbase. An 85 hp, 221-cubic-inch Ford "flathead" V-8 engine was used. Under a new model-numbering scheme, the 70 chassis was renumbered 81-B in the 1938 model year and 91-B in 1939. 69d1bd4e8d == Music == 69d1bd4e8d

Ford Transit Bus Canadian versions were built from chassis fabricated in Windsor and bodies produced by Brantford Coach & Body, from 1941 to 1943. The engine was originally placed at the front, but a rear-engine The Ford Transit Bus was a medium-duty transit bus produced by Ford from 1936 to 1947. Ford constructed the chassis, which were then fitted with bodies

constructed by the Union City Body Company of Union City, Indiana. The engine was originally placed at the front, but a rear-engine version replaced the original design in 1939. The Ford Transit Bus was a medium-duty transit bus produced by Ford from 1936 to 1947 69d1bd4e8d

During the 2000s, the Courier pickup truck was replaced by the Ranger nameplate (which replaced the Courier in North America for 1983); the Courier panel van was replaced by the Ford Transit Connect in 2002. For 2014, the stand-alone Courier name was withdrawn, but returned as the Transit Courier, the smallest vehicle of the Ford Transit van series. 69d1bd4e8d

Ford Transit The Ford Transit is a family of light commercial vehicles manufactured by the Ford Motor Company since 1965, primarily as a cargo van, but also available The Ford Transit is a family of light commercial vehicles manufactured by the Ford Motor Company since 1965, primarily as a cargo van, but also available in other configurations including a large passenger van (marketed as the Ford Tourneo in some markets since 1995),

minibus, cutaway van chassis, and a pickup truck. The vehicle is also known as the Ford T-Series (T-150, T-250, T-350), a nomenclature shared with Ford's other light commercial vehicles, the Ford F-Series trucks, and the Ford E-Series chassis. As of 2015, 8 million Transit vans have been sold, making it the third best-selling van of all time and has been produced across four basic platform generations (debuting in 1965, 1986, 2000, and 2013 respectively), with various "facelift" versions of each 69d1bd4e8d

In contrast to the Transit and Transit Connect, the Transit Courier is marketed primarily by Ford of Europe, and is not marketed in North America with the exception of Mexico between 2021-2023. The passenger version of the Transit Courier (outside the United Kingdom) is known as the Ford Tourneo Courier, in line with other Ford passenger vans sold globally. 69d1bd4e8d

Ford Transit Courier The Tourneo Courier variant is marketed as leisure activity vehicle. Deriving its underpinnings from the Ford Fiesta, the model line is the first van based on the Fiesta since the discontinuation of the Ford

Courier in August 2002. The Tourneo Courier variant is marketed as leisure activity vehicle. In contrast to the Transit and Transit Connect, the The Ford Transit Courier is a small delivery vehicle marketed by Ford of Europe. Making its debut as a model of 2014 at the 2013 Geneva Motor Show, the Transit Courier is the smallest vehicle of the product range of the Ford Transit. the Ford Courier in August 2002 69d1bd4e8d

Ford Transit Connect Developed by Ford of Europe, the model line replaced sedan-based The Ford Transit Connect is a compact panel van manufactured and marketed by Ford since 2002. The model line is the second-smallest vehicle of the Ford Transit range, positioned between the Ford Transit

Courier LAV and the Ford Transit Custom LCV/MPV. In line with other Ford Transit variants, passenger-oriented models (in Europe) are marketed as the Ford Tourneo Connect with side windows and rear seats. The Ford Transit Connect is a compact panel van manufactured and marketed by Ford since 2002. Developed by Ford of Europe, the model line replaced sedan-based vans (Ford Escort and Ford Courier vans) with a dedicated commercial vehicle platform 69d1bd4e8d

The official US Environmental Protection Agency all-electric range is 56 mi (90 km) and has a combined city/highway fuel economy of 62 miles per gallon gasoline equivalent (3.8 L/100 km equivalent) based on the five-cycle tests using varying driving conditions and climate controls, with the same 62 mpg-e rating for both city and highway. The energy consumption for combined city/highway was rated at 54 kWh/100 mi. 69d1bd4e8d Around 1,000 of the original Transit Bus model were built under the standard production arrangement, with bodies built... 69d1bd4e8d Unlike other transit systems in downstate Illinois, Connect Transit is not a mass transit district. Rather it is an intergovernmental agency of the City of Bloomington and Town of

Normal. In 2025, the Bloomington City Council and Normal Town Council approved resolutions allowing Connect Transit to operate beyond its boundaries. The resolution will allow the McLean County Government to establish its own intergovernmental agreement with Connect Transit to operate service in the rural parts of the County. On July 1, 2025, Connect Transit launched Connect GO, a demand-response service dedicated to serving rural McLean County. 69d1bd4e8d == Sedan delivery (1952-1960) == 69d1bd4e8d The first-generation Transit Connect was assembled by Ford Otosan (Kocaeli, Turkey) along with Ford Romania (Craiova, Romania).
