It is unclear when, where, and by whom the song was first sung. In historical times, folk songs were the informal property of the communities that sang them, passed down through generations. They were published only when a curious person took the trouble to visit singers and document their songs, an activity that in America began only around the turn of the 20th century. For this reason, it is unlikely that an originator of "On Top of Old Smoky" could ever be identified. f1c4d46ff7
