The aircraft's design incorporated a corrugated duralumin metal skin as a strengthening measure, which was a material design pioneered by Junkers and used on many of their aircraft, including the popular Junkers F 13 1920s, the record-setting Junkers W 33, and Junkers W34. The corrugation was both a strength and a weakness; it provided increased structural strength but also increased aerodynamic drag. But more importantly it allowed the practical use of aluminum before newer alloys were developed. 56cf9dc0e0 -anon 56cf9dc0e0 In 1992, the makers of STA-BIL fuel stabilizer approached USLMRA founder Bruce Kaufman with the idea of lawn mower racing to promote their product. Kaufman organized the first race as an April Fools' Day promotion. Sponsored by STA-BIL, the USLMRA went on to organize races that gained national attention. 56cf9dc0e0 Thanks C. Junkers Ju 52 horizontal stabilizer carried horn-balanced elevators which again projected and showed a significant gap between them and the stabilizer, which was adjustable The Junkers Ju 52, best known in its Ju 52/3m form (nicknamed Tante Ju ("Aunt Junkers") and Iron Annie) is a transport aircraft that was designed and manufactured by German aviation company Junkers. I recently went to a math competition and this problem is bugging the heck out of me. Can anyone show how to solve it as well as provide the useful laws? 56cf9dc0e0 == History == 56cf9dc0e0 The Ju 52's maiden flight was performed on 13 October 1930. It was initially designed with a single-engine version and a trimotor version; the single-engine version was to be the freighter while the trimotor was the passenger airliner. However, these articles by The San Francisco Chronicle on dinosaur fossil eggs [1] and the National Geographic on bird fossil eggs [2] should be of some assistance to you. I have added Fossil eggs to Wikipedia:Requested Articles so that someone can write an article on this topic. Capitalistroadster 00:08, 23 September 2005 (UTC) 56cf9dc0e0
