3d47c29cc3 Dr. Agnes Greig of England brought the first Tibetan Terrier to Europe in 1922. She was given a gold and white female puppy named Bunti after successfully performing an operation on a patient in Tibet. After acquiring a male, Rajah, Dr. Greig established a kennel and began to breed them. 3d47c29cc3 Whippets are characterized by their gentle, affectionate, and calm temperament. While typically relaxed and serene at home, they exhibit high energy and excitement when

outdoors. Originally bred as hunting and racing dogs, Whippets have a strong prey drive, which may lead them to chase small animals. Dog health is viewed holistically; it encompasses many different aspects, including disease processes, genetics, and nutritional health, for example. Infectious diseases that affect dogs are important not only from a veterinary standpoint, but also because of the risk to public health; an example of this is rabies. Genetic disorders also affect dogs, often due to selective breeding to produce individual dog breeds. Due to the popularity of both commercial and homemade dog foods, nutrition is also a heavily studied subject. The first litter was born in 1924 and were registered as Lhasa Terriers. In 1930, the Kennel Club of India changed the...
