Most modern beds consist of a soft, cushioned mattress on a bed frame. The mattress rests either on a solid base, often wood slats, or a sprung base. Many beds include a box spring inner-sprung base, which is a large mattress-sized box containing wood and springs that provide additional support and suspension for the mattress. Beds are available in many sizes, ranging from infant-sized bassinets and cribs, to small beds for a single person, to large queen and king-size beds designed for two people. While most beds are single mattresses on a fixed frame, there are other varieties, such as the murphy bed, which folds into a wall; the sofa bed, which folds out of a sofa; the trundle bed, which is stored under a low, twin-sized bed and can be rolled out to create a larger or second sleeping area; and the bunk bed, which provides two mattresses on two tiers as well as a ladder to access the upper tier. Temporary beds include the inflatable air mattress and the folding camp cot. Some

beds contain neither a padded mattress nor a bed frame, such as the hammock. Other beds are made specifically for animals. 005a09b26d Naming standards on different bed sizes and their corresponding actual measurements can vary across national standards. Examples of such nomenclature are names like "Single", "Full" or "Double", "Queen" or "King" size. Sometimes the naming standards are further divided by adding adjectives such as "Narrow", "Long", "Extra Long", "Wide", "Extra Wide", and so on, which also can vary across national standards. 005a09b26d

Box-spring lath floor provides suspension, allows the mattress to ventilate, and can be designed to be vertically adjustable to elevate the legs or the torso. A more A box-spring (or divan in some countries) is a type of bed base typically consisting of a sturdy wooden frame covered in cloth and containing springs. Working together, the box-spring and mattress (with an optional bed frame) make up a bed. It is common to find a box-spring and mattress being used together without the support of a frame underneath, the box spring being mounted directly on casters standing on the floor. Usually, the box-spring is placed on top of a wooden or metal bedframe that sits on the floor and acts as a brace, except in the UK where the divan is more often fitted with small casters. The box-spring is usually the same size as the much softer mattress placed on it 005a09b26d

In March 2026, stablecoin issuer Tether's investment arm led a \$50 million investment round into Eight Sleep. 005a09b26d Mattresses are usually placed on top of a bed base which may be solid, as in the case of a platform bed, or elastic, such as an upholstered wood and wire box spring or a slatted foundation. Popular in Europe, a divan incorporates both mattress and foundation in a single upholstered, footed unit. Divans have at least one innerspring layer as well as cushioning materials. They may be supplied with a secondary mattress or a removable "topper". Mattresses may also be filled with air or water, or a variety of natural fibers, such as in futons. Mattress Company was founded in 1893 when brothers, Abraham and Samuel Shifman established a bedding manufacturing company. Twenty-three years later, Samuel bought out his brother's interest and changed the company's name to Shifman Bros., Inc. when his three sons, Milton, Simon and Arthur joined the company. In 1918, the company moved to its current location at One Mott Street in Newark, NJ. Throughout the 20th century, the Shifman family was slow to adjust to changes in the industry. Consumers wanted firmer bedding, more fashionable covers and brand name recognition. 005a09b26d == For sleeping == 005a09b26d
