Value-based pricing The value that a consumer gives to a good or service, can then be defined as their willingness to pay for it (in monetary terms) or the amount of time and resources they would be willing to give up for it. If set using the value-based approach, its price will reflect factors such as age, cultural significance, and, most importantly, how much benefit the buyer is deriving. different prices, for more or less similar products. However, selling the same product at different prices is often illegal, because it is regarded as price discrimination Value-based price, also called value-optimized pricing or charging what the market will bear, is a market-driven pricing strategy which sets the price of a good or service according to its perceived or estimated value. Owning an original Dalí or Picasso painting elevates the self-esteem of the buyer and hence elevates the perceived benefits of ownership. For example, a painting may be priced at a higher cost than the price of a canvas and paints e4077b1fcc
