Traditional racks are in the form of triangular frames, usually made from wood, plastic or metal. A modern variation, called a template rack, is made from a thin material (usually 0.14 mm or less) that contains precision cut-outs to hold the balls in place. Purported benefits of template racks include a more consistent racking, and their popularity has warranted specific inclusion in profession rules. Unlike traditional racks, template racks are left on the table during the break shot and removed at the players' earliest convenience. For this reason, template racks are almost never used for games where it is common to slow-break (i.e. not create a large spread of balls) since it is significantly more likely that the rack will... 16929d4b00 Surabaya is on Madura Strait at the mouth of the Kali Mas river. By nature, Surabaya offers safe anchorage for ships. I.e. ships can safely anchor off the coast, so boats can communicate with the city proper. The good connections to the interior that the river provided made Surabaya a good location for a harbor. In the mid-1830s, the Dutch Navy decided to locate her main base in the Indies at Surabaya. In the 1840s this led to the construction of the navy base called 'Maritime Establishment' (Dutch: Maritiem Etablissement) just east of the river. The modern commercial harbor known as Port of Tanjung Perak (Dutch: Tandjong Perak) was constructed west of the river in the 1910s. 16929d4b00 Wood has been used by humans since prehistoric times for fuel, tools, weapons, and shelter, and later as a construction material and for making furniture, paper, and other products. Its use predates recorded history, with early humans exploiting branches, poles, and logs for simple tools, hunting weapons, shelters, and firewood. More recently... 16929d4b00

Wood is sometimes defined as only the secondary xylem in the stems of trees, or more broadly to include the same type of tissue elsewhere, such as in the roots of trees or shrubs. In a living tree, it performs a mechanical-support function, enabling woody plants to grow large or to stand up by themselves. It also conveys water and nutrients among the leaves, other growing tissues, and the roots. Wood may also refer to other plant materials with comparable properties, and to material engineered from wood, woodchips, or fibers. 16929d4b00
