"Black Friday" has evolved in meaning and impact over the years, initially referring to calamitous days, with a notable early instance being the Black Friday of 1869 in the US. This financial crisis saw a dramatic plunge in gold prices, affecting investors. The term was later used in American retail, starting ambiguously in the 1950s. Initially associated with workforce absence post-Thanksgiving, it was reinterpreted by Philadelphia police to describe the shopping-induced congestion. Attempts at rebranding to "Big Friday" failed, and the term "Black Friday" solidified by the 1980s, referring to the pivotal point where retailers purportedly shifted from loss ("in the red") to profit ("in the black"). This day marks the unofficial start of the Christmas shopping... cb3bd059a4 C-Tec was conceived as a one-off project, under the name The Cyber-Tec Project, but the members decided to continue producing music under the name.
