Can anyone recommend some clean-looking nice fonts that look good at small sizes (10 - 12) like Arial, Tahoma, Verdana, Times New Roman, etc? I believe this kind of cut and paste is counter-policy as it violates the rights of contributors prior to September 2nd, 2010. We release most of our rights when we click "save". But we retain the right to have our contributions attributed to us -- and that it obfuscated with this kind of cutting and pasting. 7a8a8c510f The prototype of the modern pressure cooker was the steam digester invented in the seventeenth century by the physicist Denis Papin. It works by expelling air from the vessel and trapping steam produced from the boiling liquid. This is used to raise the internal pressure to one atmosphere above ambient and gives higher cooking temperatures between 100-121 °C (212-250 °F). Together with high thermal heat transfer from steam it permits cooking in between a half and a quarter the time of conventional boiling as well as saving considerable energy. 7a8a8c510f I was thinking about this some time ago. Imagine a small room that has a door on each of its six faces. On the center is a flower pot and some clothes that I discarded. If I open and enter any of the doors in this room, I will enter a room with the flower pot and the same clothes that I discarded earlier. My question is, what is the shape of the room? I'm pretty sure it is not 3 dimensional. --Lenticel (talk) 00:37, 12 November 2008 (UTC) 7a8a8c510f == What shape is this? == 7a8a8c510f I wasn't familiar with {{histmerge}}. Wikipedia:Village pump/Archive F Jacques Delson 17:20 24 May 2003 (UTC). It is confusing to have two pages on the same topic. Is not the computer terminology something better identified to avoid disambiguation. Someone today created a disambiguation page for PGA. 30 May 2003 (UTC) What exactly are Temp pages. And I wonder if before a disambiguation page is created, it might not be best to think it out in terms of true need and potential effects. I hate to complain, but I have done a ton of work and I really do not want to go back and open 50 pages just to fix the PGA links in sports. It is an obscure term for all but those who have a lot of computer knowledge. This puts a huge onus on my 50 years of work ALREADY done on "years in sport" where, now, in order for a user to click on my PGA listing, they are forced to go through a disambiguation page. It just has a newer and more standardized outlook 7a8a8c510f

Modern pressure cookers have many safety features to prevent the pressure cooker from reaching a pressure that could cause an explosion or other dangerous situations. Thanks! Geo Swan (talk) 19:28, 3 December 2011 (UTC) 7a8a8c510f == Cast == 7a8a8c510f As this list includes writers from antiquity until the present, it is clearly understood that the term "LGBTQ" may not ideally describe the identity of all authors, particularly for those who wrote before the nineteenth century. In some cases, it is more useful to consider such authors as persons who expressed attractions for persons of the same sex (for example, Sappho or Plato), and avoid the anachronistic use of contemporary labels. Inclusion in this list follows general scholarly and academic norms, specified in references, that attempt to establish a genealogy or history of LGBTQ literature written by LGBTQ people. There are many additional non-LGBTQ authors who have written works on LGBTQ topics. All new additions to this list should include a reference. 7a8a8c510f
