Companies that have cornered their markets have usually done so in an attempt to gain greater leeway in their decisions; for example, they may desire to charge higher prices for their products without fears of losing too much business. The cornerer hopes to gain control of enough of the supply of the commodity to be able to set the price for it. "Li'l Sebastian", which originally aired back-to-back with "The Bubble", ended with several major developments. These included Leslie being approached to run for political office, and Tom's decision to quit his job to run an entertainment company. The exact outcome of the newly introduced storylines had not yet been determined when the episode first aired. The writing staff considered killing off a human character instead of Li'l Sebastian, but decided against it. Series co-creator Michael Schur called the episode's final scene, which was filmed in the completely white, 15,000-square-foot (1,400 m2) office of Tom's entertainment company, "maybe the craziest thing that's ever been on our series...

"Somebody That I Used to Know" was written and recorded by Gotye at his parents' house on the Mornington Peninsula in Victoria, Australia, and is lyrically related to the experiences he has had with romantic relationships. The song is a mid-tempo ballad. It samples Luiz Bonfá's instrumental "Seville" from his album, Luiz Bonfá Plays Great Songs (1967) with percussion over a xylophone melody from the Joseph Cooper and Sinfonia of London 1961 LP A Child's Introduction to the Instruments of the Orchestra, which is based on "Baa, Baa, Black Sheep". Lyrically, the song describes the aftermath of a romantic relationship from both parties' perspectives. Over the past decade, Bitcoin has evolved from a niche digital experiment to an increasingly integrated component of global financial markets and the broader economy. This transformation has been marked by growing institutional adoption, with major corporations adding Bitcoin to their balance sheets and traditional financial institutions offering cryptocurrency services. Research has documented significant interconnections between Bitcoin prices and both financial market fluctuations and macroeconomic indicators, suggesting that cryptocurrency markets are no longer isolated from conventional economic systems. This integration has profound implications for monetary policy, financial stability, and risk management, as Bitcoin's market movements increasingly correlate with traditional asset classes during periods of market stress. ace in the hole
