History of cosmetics Egyptian men and women used makeup to enhance their appearance. The evidence for this comes in the form of utilised red mineral pigments (red ochre) including crayons associated with the emergence of Homo sapiens in Africa. Cosmetic body art is argued to have been the earliest form of a ritual in human culture. To achieve a pleasant smell and The history of cosmetics spans at least 7,000 years and is present in almost every society on earth. Cosmetics are mentioned in the Old Testament—2 Kings 9:30 where Jezebel painted her eyelids—approximately 840 BC—and the book of Esther describes various beauty treatments as well. The first cosmetics appeared 5,000 years ago in Egypt 6b9d1ec808

The use of eye shadow attempts to replicate the natural eyelid coloration that some women exhibit due to a natural contrasting pigmentation on their eyelids. Natural eye shadow can range from a glossy shine on one's eyelids to a pinkish tone or even a silver look. 6b9d1ec808 Pastels have been used by artists since the Renaissance, and gained considerable popularity in the 18th century, when a number of notable artists made pastel their primary medium. The medium has been especially popular in French art. It has often been used for portraits, but can be very effective for other subjects, such as landscape paintings. Compared to oil paint it is quick and straightforward to use, with some of the advantages of drawing. 6b9d1ec808 ==

Body painting with hands, paint brush, and synthetic sponges or natural sea sponge, or alternatively with an airbrush. Large scale or full-body painting is more commonly referred to as body painting, while smaller or more detailed work can sometimes be referred to as temporary tattoos. Unlike tattoos and other forms of body art, body painting is temporary, lasting several hours or sometimes up to a few weeks (in the case of mehndi or "henna tattoos" about two weeks). Body painting that is limited to the face is known as face painting. Contrary to the popular myth perpetuated by the Body painting is a form of body art where artwork is painted directly onto the human skin. Body painting is also referred to as (a form of) "temporary tattoo" 6b9d1ec808

People have used cosmetics for thousands of years for skin care and appearance enhancement. Visible cosmetics for both women and men have gone in and out of fashion over the centuries. 6b9d1ec808 == Africa == 6b9d1ec808

Makeup brush When cosmetics are applied using the appropriate brush, they blend better on the skin. A makeup brush is a tool with bristles, used for the application of makeup or face painting. The bristles may be made out of natural or synthetic materials, while the handle is usually made out of plastic or wood. The bristles may be made out of natural or synthetic materials A makeup brush is a tool with bristles, used for the application of makeup or face painting 6b9d1ec808

== Use == 6b9d1ec808 Some early cosmetics contained harmful ingredients, such as lead, which caused serious health problems and sometimes resulted in death. Modern commercial cosmetics are generally tested for safety but may contain controversial ingredients, such as per- and polyfluoroalkyl substances (PFAS), formaldehyde releasers, and ingredients that cause allergic reactions. 6b9d1ec808 There is a large variety of shapes and sizes of makeup brushes, depending on the face area where makeup will be applied, the cosmetic product and the wanted result. For example, the shape of the brush tip can be chiseled, straight, angular,

round, flat or tapered. The European Union and regulatory agencies around the world have stringent regulations for cosmetics... History == Civilizations around the world use and have used eye shadow across genders. In ancient Egypt, it was customarily used by both men and women. Kohl, an ancient eye cosmetic, played a prominent role in various cultures and religious practices. The global market size of the personal care products industry is several hundred billion US Dollars (as of early 2020s). As of 2025, it was estimated that the average adult in the United States used a dozen personal care products daily containing... An artwork made using pastels is called a pastel (or a pastel drawing or pastel painting). Pastel used as a verb means to produce an artwork with pastels; as an adjective it means pale in color. Cosmetics were also used in ancient Rome, although much of Roman literature suggests that it was frowned upon. It is known that some women in ancient Rome invented make up including lead-based formulas, to whiten the skin, and kohl to line the eyes.

Culture of Guyana Guyana is part of the mainland Caribbean region. where the ethnic mix is somewhat similar. Guyanese culture shares a continuum with the cultures of islands in the West Indies. The food reflects the ethnic makeup of the country and its colonial history, and includes ethnic groups of Indian Guyanese culture reflects the influence of Indian, African, Amerindian, British, Portuguese, Chinese, Creole, and Dutch cultures

Personal care products Bath towels are used to dry up wet Personal care products are a class of consumer products associated hygiene and personal grooming. They are marketed to modern consumers as "minimally necessary" or improving appearance or well-being. are used to wipe the nasal discharge. Cotton pads are used to remove makeup. Cotton swabs are used to clean outer ear

Most of the personal care products are rinsed off immediately after use, such as shampoos, soaps, toothpastes, shower gels, etc. Some products, such as moisturizers and sunscreens, are designed to remain on the skin for extended protection. The use of cosmetics to enhance complexion reaches back into antiquity. "Face painting" is mentioned in the Old Testament (Ezekiel 23:40). Ancient Egyptians used foundation. In 200 BC, ancient Greek women applied white lead powder and chalk to lighten their skin. It was considered fashionable for Greek women to have a pale complexion. Roman women also favoured a pale complexion. Wealthy Romans favoured white lead paste, which could lead to disfigurement and death. Men also wore makeup to lighten their skin tone, using white lead powder, chalk, and creams. The cream was made from animal fat, starch, and tin oxide. The fat was rendered from animal carcasses and heated to remove the color. Tin oxide was made out of heating tin metal in the open air. The animal fat provided a smooth texture, while the tin oxide provided color to the cream.

Tectitethya crypta T. It is located in reef areas situated on softer substrates such as sand or mud. This results in an appearance that is cream colored/ gray colored; however, when the animal is washed free of its sediment coverings, its body plan appears more green and gray. This sponge was first discovered by Werner Bergmann in 1945 and later classified by de Laubenfels in 1949. *crypta* sponges are seen to have a conical shape with their sediment concentrated near their bottom or base. Its classified family is characterized by fourteen different known genera, one of them being *Tectitethya*. *crypta* is characterized by ostia peaking out of its body cavity, with the ability to abruptly open or close, changing the water flow rate through its mesohyl. Oftentimes, it is covered in sand and algae. It is a massive, shallow-water sponge found in the Caribbean Sea. The larger sponges are seen to be irregular *Tectitethya crypta* is a species of demosponge belonging to the family Tethyidae

Cosmetics Makeup can add color to the face, enhance features, or alter appearance

to resemble a different person, creature, or object. Cosmetics have various purposes, including personal and skin care. brush is used to even the skin's appearance. In addition to brushes, a makeup sponge is a popular applicator. Makeup sponges can be used to apply foundation Cosmetics are substances that are intended for application to the body for cleansing, beautifying, promoting attractiveness, or altering appearance. They are mixtures of chemical compounds derived from either natural sources or created synthetically. They can also be used to conceal blemishes and enhance natural features (such as the eyebrows and eyelashes) 6b9d1ec808

They are applied on various external parts of the body such as skin, hair, nails, lips, external genital and anal areas, as well as teeth and mucous membrane of the oral cavity. Toiletries form a narrower category of personal care products which are used for basic hygiene and cleanliness as a part of a daily routine. Cosmetic products, in contrast, are used for personal grooming and beautification (aesthetically enhance a person's appearance). Pharmaceutical products are not considered personal care products. 6b9d1ec808

Eye shadow To remove eye shadow, a commercial makeup remover can be utilized, though a rich face wash will usually Eye shadow (or eyeshadow) is a cosmetic applied primarily to the eyelids to attract attention to the wearer's eyes, making them stand out or look more attractive. shadow, and makeup in general, is blending well. Eye shadow can also be applied under the eyes, on the cheeks, or to brow bones 6b9d1ec808

Foundation (cosmetics) Brush: For Foundation is a liquid, cream, or powder cosmetic applied to the face and neck to create an even, uniform color to the complexion, typically to cover flaws and change the natural skin tone. Foundation applied to the body is referred to as "body painting" or "body makeup". the cheeks or forehead. Also, note that reusing sponges can be unhygienic, so sponges should be washed and dried thoroughly after every use 6b9d1ec808

Pastel A 21st century A pastel (US:) is an art medium that consists of powdered pigment and a binder. No liquid is involved. The color effect of pastels is closer to the natural dry pigments than that of any other process. minimum of binder in flat compacts (similar to some makeup) and applied with special soft micropore sponge tools. It can exist in a variety of forms, including a stick, a square, a pebble, and a pan of color, among other forms. The pigments used in pastels are similar to those used to produce some other colored visual arts media, such as oil paints; the binder is of a neutral hue and low saturation 6b9d1ec808
