Truck Autocar Trucks was the first of the major truck manufacturers to offer a range of electric trucks for sale. Commercial trucks can be very large and powerful and may be configured to be mounted with specialized equipment, such as in the case of refuse trucks, fire trucks, concrete mixers, and suction excavators. Trucks vary greatly in size, power, and configuration, but the vast majority feature body-on-frame construction, with a cabin that is independent of the payload portion of the vehicle. Smaller varieties may be mechanically similar to some automobiles. Electric trucks were successful for urban delivery A truck (North American and Australian English) or lorry (British English) is a motor vehicle designed to transport freight, carry specialized payloads, or perform other utilitarian work. In American English, a commercial vehicle without a trailer or other articulation is formally a "straight truck" while one designed specifically to pull a trailer is not a truck but a "tractor" a1a530cf97

The majority of trucks currently in use are powered by diesel engines, although small- to medium-size trucks with gasoline engines exist in North America. Electrically powered trucks are more popular in China and Europe than elsewhere. Brambles traces its history to 1875, when Walter Bramble established a butchery business in Newcastle, the operations of which he gradually expanded into transport and logistics. Brambles was listed on the Australian Securities Exchange in 1954, as W E Bramble & Sons Limited and entered the pallet pooling business in 1958 through the purchase of the Commonwealth Handling Equipment Pool (CHEP), from the Australian Government. This same year the company changed its name to Brambles Industries Limited and moved its head office from Newcastle to Sydney. a1a530cf97 Shunpikes were known in the United States soon after independence. In the mid-1700s, Samuel Rice built a road over the Hoosac Range in northwestern Massachusetts, near the present Hoosac Tunnel. Subsequently, a nearby road for stagecoaches was built around 1787, which became subject to control of the Turnpike Association incorporated in 1797. People desiring to avoid the turnpike fees took the Rice Road instead of the stage road, and so the Rice Road earned the sobriquet "shunpike". a1a530cf97
