

Milwaukee Circular Saw M18

== History == b7017e013f

Plunge saw Compared to traditional hand-held circular saws, plunge saws are said to increase operator safety, as well as allowing for reduced splintering and tear-out. This property also allows a plunge saw to cut shallow grooves into the workpiece, if necessary. In other words, the depth-of-cut is not fixed and often can be adjusted to be just slightly over the thickness of the board being cut. A plunge saw or plunge-cut saw is a type of hand-held circular saw which differs from a regular circular saw in that it can plunge into the material to a predetermined depth during the cut. Plunge saws are a useful power tool for joiners, carpenters, kitchen fitters and anyone who works with laminates, insulation or needs to make many cuts in work pieces b7017e013f
