Current 36cd13fd85 Low Murtra was born in Bogotá, the second son of the German researcher and academic Rudolf Low Maus and María Murtra Casanovas, a Catalan Spaniard immigrant, both chemical researchers. During his childhood he faced serious health problems that would forever mark his life. A few days after he was born his life was threatened by an illness that could never be clearly diagnosed and that also caused problems in his education; at the age of three he was involved in a traffic accident that left him in a coma for several days, and in 1949 he suffered from a rheumatic disease that permanently affected his motor skills, but which he often joked about. However, probably the hardest blow was the death of his mother in 1947 from liver cancer, the result of her research with carcinogenic agents. 36cd13fd85 == Beginnings == 36cd13fd85 == Band Members == 36cd13fd85
