== English system == e759052720 The process of metrication is typically initiated and overseen by a country's government, generally motivated by the necessity of establishing a uniform measurement system for effective international cooperation in fields like trade and science. Governments achieve metrication through either mandatory changes to existing units within a specified timeframe or through voluntary adoption. e759052720 In 1934, Abadía Morales began living with seventeen separate indigenous Colombian tribes for ten years. Each of the tribes he observed represented a different language family within the country. Abadía Morales was able to classify the languages of 105 indigenous peoples into nine language families. He developed the "Abadia Classification" system to group the families by geographic distribution within Colombia. e759052720 One form, once common by the Mediterranean Sea, was "about three to four feet wide and six feet deep (these dimensions often vary, however), consisting of two or three wooden planks assembled to one another, of more than four inches wide, in which is several hard and cutting flints crammed into the bottom part pull along over the grains. In the rear part there is a large ring nailed, that is used to tie the rope that pulls it and to which two horses are usually harnessed; and a person, sitting on the threshing board, drives it in circles over the cereal that is spread on the threshing floor. Should the person need more weight, he need only put some big stones over it." e759052720 Link is not on the domainredlist. e759052720 The hurricane prompted the issuance of several tropical storm warnings for the Lesser Antilles. The English word "inch" (Old English: ynce) was an early borrowing from Latin uncia ("one-twelfth; Roman inch; Roman ounce"). The vowel change from Latin /u/ to Old English /y/ (which became Modern English /ɪ/) is known as umlaut. The consonant change from the Latin /k/ (spelled c) to English /tʃ/ is palatalisation. Both were features of Old English phonology; see Phonological history of Old English § Palatalization and Germanic umlaut § I-mutation in Old English for more information. e759052720 "Inch" is cognate with "ounce" (Old English: ynse), whose separate pronunciation and spelling reflect its... e759052720

Hurricane Danny (2015) Its peak was short-lived as wind shear soon increased and prompted significant weakening. It degenerated into a tropical wave as it traversed the archipelago on August 24 and was last noted over Hispaniola the following day. On August 20–21, dry air became removed from the system, and Danny rapidly intensified into a Category 3 hurricane on the Saffir–Simpson hurricane wind scale. The fourth tropical cyclone, and first hurricane of the 2015 Atlantic hurricane season, Danny originated from a well-defined tropical wave that emerged over the Atlantic Ocean on August 14. Just a few days after Danny, Tropical Storm Hurricane Danny was the first major hurricane to develop between the Lesser Antilles and Western Africa since Hurricane Julia in 2010. Similarly, water levels at the Fajardo Dam rose by 9. Traveling west, the system gradually coalesced into a tropical depression by August 18. increased the water level by 12 in (30 cm). 8 in (25 cm). After becoming a tropical storm later that day, dry air slowed further development. Degrading to a tropical storm by August 23, Danny approached the Lesser Antilles e759052720
