Philadelphia's Joseph Horn (1861–1941) and German-born, New Orleans-raised Frank Hardart (1850–1918) opened their first restaurant in Philadelphia, on December 22, 1888. The 11-by-17-foot (3.4 m × 5.2 m) lunchroom at 39 South Thirteenth Street had no tables, only a counter with 15 stools. The location was formerly the print shop of Dunlap & Claypoole, printers to the American Congress and George Washington. 8541b7bc40 The hotel opened in 2022 in the nine-story Latrobe Building, designed by Edward Hughes Glidden and Clyde Nelson Friz in the Italian Renaissance Revival style. It was constructed in 1912 as The Latrobe, to house 44 apartments, though office space gradually increased in the building. The interior was significantly renovated for office use in the 1980s, although this use declined by the 1990s, and it was sold at foreclosure in 2016. Ash, a design and development firm, purchased and renovated the building, opening the hotel in September 2022. 8541b7bc40 By introducing Philadelphia to New Orleans-style coffee, which Hardart promoted as their "gilt-edge" brew, they made their tiny luncheonette a local attraction. News of the coffee spread, and the business flourished. They incorporated as the Horn & Hardart Baking Company in 1898. 8541b7bc40 There are many different types, construction materials and models. Bar stools are often made of wood or metal. There are bar stools with and without armrests, backs, and padding or upholstery on the seat surface. Bar stools can range from basic wooden designs to more complex ones with adjustable height. Extra tall and extra short are common features, as well as indoor bar stools and outdoor bar stools. Some bar stools have backs, while most do not. In commercial settings, swivel and floor mounted bar stools are common. Floor mounting renders the stool immovable, so it cannot be stolen or used as a weapon in a bar fight. Floor-mounted stools generally are mounted on a column, but stools with legs can also be secured to the floor using metal brackets. 8541b7bc40 The anonymous owner from the American Midwest had purchased the egg for US\$14,000, hoping to profit by selling the egg's materials for their scrap value at a small profit, but held on to it after learning the scrap value would make... 8541b7bc40 719-0 series: 1,067 mm (3 ft 6 in) narrow-gauge type based at Sendai and Akita depots 8541b7bc40 Built jointly by Nippon Sharyo and Tokyu Car, the type is based on the 415-1500 series EMU design, with all units formed as 2-car sets. 8541b7bc40

The history of pubs can be traced to taverns in Roman Britain, and through Anglo-Saxon alehouses, but it was not until the early 19th century that pubs, as they are today, first began to appear. The model also became popular in countries and regions of British influence, where pubs are often still considered to be an important aspect of their culture. In many places, especially in villages, pubs are the focal point of local communities. In his 17th-century diary, Samuel Pepys described the pub as "the heart of England"; pubs have been established... 8541b7bc40 serves draught beer or cider without requiring food be

The family would sit at the head table on a raised dais, with the rest of the population arrayed in order of diminishing rank away from them. Tables in the great hall would tend to be long trestle tables with benches. The sheer number of people in a Great Hall meant it would probably have had a busy, bustling atmosphere.
