As a group, the lowest earning workers, especially those with dependents, pay no income taxes and may actually receive a small subsidy from the federal government (from child credits and the earned income tax credit). Taxes fall much more heavily on labor income than on capital income. Divergent taxes and subsidies for different forms of income and spending can also

constitute a form of indirect taxation of some activities over others. Taxes are imposed on net income of individuals and corporations by the federal, most state, and some local governments. Citizens and residents are taxed on worldwide income and allowed a credit for foreign taxes. Income subject... 2107a1c073

Tax horsepower The tax horsepower rating was typically computed not from actual engine power but by mathematical formulae based on cylinder dimensions etc, and varying per country. different tax rules and existent high speed road networks, in particular the Volkswagen Beetle, proved more reliable, and achieved greater sales success The fiscal / taxable horsepower or just tax horsepower was an early system to calculate road taxation rates for automobiles in a number of key Western European countries such as the UK, Germany, France, Belgium and Italy. In the early twentieth century, fiscal power was reasonably close to real power - but as the internal combustion engine developed, real power output outpaced nominal taxable power by a factor of up to ten or more. Some U. S. states like Illinois also charged license plate purchase and renewal fees for passenger automobiles, based on taxable horsepower 2107a1c073

Tax resistance is the refusal to pay a tax, usually by means that bypass established legal norms, as a means of protest, nonviolent resistance, or conscientious objection. It was a core tactic of the American Revolution and has played a role in many struggles in America from colonial times to the present day. 2107a1c073 == State government tax collections (2024) == 2107a1c073 The theory that there should be "no taxation without representation", while it did not originate in America, is often associated with the American Revolution, in which that slogan did strong duty. It continues to be a rallying cry for tax rebellions today. This table does not necessarily reflect the actual tax burdens borne directly by individual persons or businesses in a state. For example, the direct state tax burden on individuals in Alaska is far lower than the table would indicate. The state has no direct personal income tax and does not collect a state-level sales tax, although it allows local governments to collect their own sales taxes. Alaska collects most of its revenue from corporate taxes on the oil and gas industry. 2107a1c073
