Market value is a concept distinct from market price, which is "the price at which one can transact", while market value is "the true

underlying value" according to theoretical standards. The concept is most commonly invoked in situations where prevailing market prices are not reflective of true underlying market value. For market price to equal market value, the market must be informationally efficient and rational expectations must prevail. a2bcabdb91 Usually, the government files an eminent domain action to take private property for public use and just compensation is determined at trial if the landowner does not settle with the government. However, when the government fails to file an eminent domain action and pay for the taking, the owner may seek compensation in an action called inverse condemnation. a2bcabdb91
