Societal effects of cars keen interest in cars and/or participate in the car hobby are known as "Car Enthusiasts". Cars, especially classic Since the start of the twentieth century, the role of cars in society has become highly important, though controversial. They introduced sweeping changes in employment patterns, social interactions, infrastructure and the distribution of goods. They are used throughout the world and have become the most popular mode of transport in many of the more developed countries. The spread of cars built upon earlier changes in transport brought by railways and bicycles. One major aspect of the hobby is collecting. In developing countries cars are fewer and the effects of the car on society are less visible but still significant e988d5b571
