Dodge Caravan Retrieved September 8, 2020. dodge. Automotive News. "2018 Dodge /// Durango /// Journey /// Grand Caravan" (PDF). p. Willems The Dodge Caravan is a series of minivans manufactured by Chrysler from the 1984 through 2020 model years. 38. Following the demise of Plymouth, the model line became the lowest-price Chrysler minivan, ultimately slotted below the Chrysler Pacifica. The Dodge version of the Chrysler minivans was marketed as both a passenger van and a cargo van (the only version of the model line offered in the latter configuration). com. For 1987, the model line was joined by the long-wheelbase Dodge Grand Caravan. Produced in five generations across 36 model years, the Dodge Caravan is the second longest-lived Dodge nameplate (exceeded only by the Dodge Charger). Retrieved November 11, 2017. Initially marketed as the Dodge counterpart of the Plymouth Voyager, the Caravan was later slotted between the Voyager and the Chrysler Town & Country 6af8babcd

1946–1953 M5/M6 Presto-Matic — 4-speed (2 gear manual with electric overdrive) with clutch and fluid coupling (Fluid Drive) or torque converter (Fluid Torque Drive); also known as Tip-Toe Shift, Gyro-Matic, Fluid-Matic, Gyro-Torque 6af8babcd

Ultradrive 2005–2010 Chrysler 300 2006–2010 Dodge Charger 2004–2011 Dodge Dakota 2004–2009 Dodge Durango 2005–2008 Dodge Magnum 2007–2011 Dodge Nitro 2003–2012 Jeep Liberty The Ultradrive is an automatic transmission manufactured by Chrysler beginning in the 1989 model year 6af8babcd

The Ultradrive and succeeding transmissions are produced at the Kokomo Transmission plant in Kokomo, Indiana, which also manufactures other Chrysler automatic transmissions. As of 2020, Dodge Journeys equipped with four-cylinder engines are the only applications of the four-speed Ultradrive (40TES) remaining in production. The Ram Promaster will be the only vehicle to use an Ultradrive transmission after 2020.

Chrysler minivans (RT) Manufactured alongside the Chrysler and Dodge minivans at Windsor The RT-platform Chrysler minivans are a series of passenger minivans marketed by Chrysler starting in model year 2008, the fifth in six generations of Chrysler minivans. variant of the RT minivans with revised styling, content features and suspension tuning. While most versions were discontinued in 2016 with the launch of the Chrysler Pacifica minivan, the Grand Caravan remained in production until 2020. It was replaced by the sixth generation Chrysler Voyager (continuing under the Grand Caravan nameplate in

Canada), a new entry-level model based on the existing Chrysler Pacifica minivan. Only long wheelbase models were offered with the Dodge Journey replacing the short wheelbase model. Depending on the market, these vans were known as the Dodge Grand Caravan, Chrysler Town & Country, Chrysler Grand Voyager, Lancia Voyager, Ram Cargo Van, and the Volkswagen Routan, a modified version sold by Volkswagen in North America 6af8babcd

By the late 1920s, the automotive industry's maturation resulted in many smaller automobile manufacturers being acquired or replaced by larger ones. The Chicago Auto Show continued to gain prominence during this era and was often regarded as the "National Auto Show". Samuel Miles retired as the Chicago Auto Show's general manager in 1931 after three decades of service. 6af8babcd Sold primarily in the United States and Canada, the Dodge Caravan was also marketed in Europe and other international markets under the Chrysler brand (as the Chrysler Voyager or Chrysler Caravan). From 2008 onward, Dodge marketed the model line only as the Grand Caravan; Ram Trucks sold a cargo-only version of the model line as the Ram C/V Tradesman. The model line was also rebranded as the Volkswagen... 6af8babcd Samuel Miles, formerly a promoter of bicycle shows, produced the first "official" Chicago Automobile Show in 1901. The event was staged in March of that year at the third Chicago Coliseum. The 1901 show featured an indoor track for attendees to test drive the ten vehicles exhibited: five electric powered, three steam powered, and two with gasoline engines. The 1902 show saw 100 cars on display; the indoor track was discontinued after the first year to accommodate space requirements for the exhibitors. 6af8babcd == Semi-automatic == 6af8babcd Chrysler assembled the Spirit alongside the Acclaim and LeBaron at its Newark Assembly (Newark, Delaware) and Toluca Car Assembly (Toluca, Mexico) facilities; the last vehicle was produced on December 9, 1994, as Dodge replaced the model line with the Dodge Stratus (selling both for the 1995 model year). 6af8babcd == History == 6af8babcd The Ultradrive was a significant technological advancement in transmission operation, one of the first electronically controlled automatics. It pioneered many now-common features such as adaptive... 6af8babcd Demand for larger specialty cars was rapidly increasing. Mercury was successful in its execution when it introduced the upscale Cougar, a larger and more refined version of the Ford Mustang that pioneered the pony car concept when it was introduced in 1964. General Motors was fielding specialty models across all its nameplates. 6af8babcd In 2004, the Chrysler SRT (Street and Racing Technology) division replaced R/T as the high performance auto group for Dodge vehicles, though the trim level is still in use on many current models with more powerful engines and cosmetic changes such as different rims and bumpers and grills and the R/T badge. 6af8babcd The first generation Charger included high-trim and comfort features positioned as a luxurious fastback hardtop. It was aimed at the segment that included the Oldsmobile Toronado and Ford Thunderbird rather than as a muscle car.... 6af8babcd 1941–1942 M4 Vacamatic — 4-speed (2-range manual control with automatic 2-speed shift vacuum operated) with clutch and fluid coupling (Fluid Drive); also known as Simplimatic, Powermatic 6af8babcd == Event History == 6af8babcd The Dodge Spirit and its counterparts used the Chrysler AA platform, an evolution of the

Chrysler K platform. Benchmarked against the Honda Accord and Toyota Camry during its design, the Spirit grew in size over its Aries predecessor to allow for increased passenger space. In another change, both turbocharged I4 and V6 engines became optional.

Dodge Spirit Slotted between the Dodge Shadow and Dodge Dynasty in size, the Spirit served as the successor of the Dodge Aries K-car; as Chrysler streamlined its mid-size lines, the Spirit also replaced the Dodge Lancer and Dodge 600. The Dodge Spirit is a midsize car that was sold by Dodge from the 1989 to 1995 model years. Slotted between the Dodge Shadow and Dodge Dynasty in size The Dodge Spirit is a midsize car that was sold by Dodge from the 1989 to 1995 model years. Produced solely as a notchback four-door sedan, the model line was sold alongside the Plymouth Acclaim and Chrysler LeBaron; the model line was exported to Europe as the Chrysler Saratoga

Chrysler debuted the 2008 model year minivans at the 2007 Detroit Auto Show — eliminating the short-wheelbase model. With discontinuation of the short-wheelbase minivans, Dodge offered the Journey on nearly an identical wheelbase and as a crossover rather than a minivan. Although the SWB model, which had accounted for half of all sales in... Initially produced in a single four-speed variant paired with the Mitsubishi (6G72) 3.0-liter engine in vehicles with transverse engines, application was expanded to the Chrysler 3.3- and 3.8-liter V6 engines in 1990 model year Dodge Caravan/Grand Caravan, Plymouth Voyager/Grand Voyager, Chrysler Town & Country, Dodge Dynasty and Chrysler New Yorker. A six-speed variant (62TE) was introduced in the 2007 model year and remains in production for several models as of 2019.

In the United States, the Charger nameplate has been used on mid-size cars, personal luxury coupes, subcompact hatchbacks, and full-size sedans. In November 2021, Stellantis announced that 2023 model year would be the final model year for both the LD Dodge Charger and LA Dodge Challenger, as the company will focus its future plans on electric vehicles rather than fossil fuel powered vehicles, due to tougher emissions standards required by the Environmental Protection Agency for the 2023 model year. Challenger production ended on December 22, 2023, and the Brampton, Ontario assembly plant will be re-tooled to assemble an electrified successor.
