Tesla Roadster (second generation) The Roadster would be the successor to Tesla's first production car, the 2008 Tesla Roadster. The company claims it will The second generation Tesla Roadster is an upcoming battery electric four-seater sports car planned to be built by Tesla, Inc. 9 seconds, which would have been quicker than any street legal production car at the date of its announcement in November 2017. The second generation Tesla Roadster is an upcoming battery electric four-seater sports car planned to be built by Tesla, Inc. The company claims it will be capable of accelerating from 0 to 60 mph in 1

Tesla, Inc. (/ˈtɛzlə/ TEZ-lə or /ˈtɛslə/ TESS-lə) is an American multinational automotive and clean energy company. Headquartered in Austin, Texas, it Tesla, Inc. (/ˈtɛzlə/ TEZ-lə or /ˈtɛsslə/ TESS-lə) is an American multinational automotive and clean energy company. Headquartered in Austin, Texas, it designs, manufactures, and sells battery electric vehicles (BEVs), stationary battery energy storage devices from home to grid-scale, solar panels and solar shingles, and related products and services. Tesla, Inc

The Model X has an EPA size class as an SUV, and shares around 30 percent of its content with the Model S, half of the originally planned 60 percent, and weighs about 10 percent more. Both the Model X and Model S are produced at the Tesla Factory in Fremont, California. The prototype was unveiled at Tesla's design studios in Hawthorne, California, on February 9, 2012. First deliveries of the Model X began in September 2015. After one full year on the market, in 2016, the Model X ranked seventh among the world's best-selling plug-in cars. A refresh of the Tesla Model X was introduced in 2021, offering a new "Plaid" performance model, along with a revised interior, powertrain, and suspension. Another update of the Model X was introduced in June 2025 with a new front bumper camera, new wheel designs, increased third-row space, dynamic ambient lighting... == Overview == The ATV was mentioned in the specifications for the Cybertruck; the Cybertruck was described as having "space for your toolbox, tire and Cyberquad, with room to spare". One day later, Musk tweeted, "Tesla 2 person electric ATV will come at first as an option for Cybertruck." The ATV can charge in the bed of the Tesla Cybertruck from its 120 or 240 volt charging system. Pricing was not mentioned. Pobst has more than 90 pro wins.

List of fastest production cars by acceleration Retrieved 27 June 2026. Half-Mile Speed". Times driven privately or by manufacturers need the presence of an independent, reliable source or at least some video footage to confirm the car and tire condition to qualify as independent. Self-published video such as YouTube, including drag race videos, should not be considered reliable sources for this list. US. All entries must be able to be verified from reliable sources. "The World's Quickest Cars: Lucid Air Sapphire v Bugatti Chiron v Tesla Plaid Cammisa's - This list is limited to unmodified production cars that meet the eligibility criteria below. Up to one percent decline from start to finish is allowed. Road and Track

== Career == Active in the SCCA World Challenge GT series and the Grand American series' GT class, Pobst was the 2003, 2007, 2008, and 2010 SCCA World Challenge GT champion, the 1996 North American Touring Car Championship title winner, and the 2005, 2006 and 2007 SCCA World Challenge TC vice-champion. He is also a two-time class winner of the 24 Hours of Daytona, in 2001 and 2006.

Tesla Autopilot hardware Tesla Autopilot, an advanced driver-assistance system (ADAS) for Tesla vehicles, uses a suite of sensors and an onboard computer. It has undergone several Tesla Autopilot, an advanced driver-assistance system (ADAS) for Tesla vehicles, uses a suite of sensors and an onboard computer. It has undergone several hardware changes and versions since 2014, most notably moving to an all-camera-based system by 2023, in contrast with ADAS from other companies, which generally include radar and/or lidar sensors

Randy Pobst at Pikes Peak International Hill Climb driving the newly-released Tesla Model S Plaid, prepared by Unplugged Performance. While competing for Unplugged Randy Franklin Pobst (born June 26, 1957, in Dayton, Ohio), also known as "RFP" or "The Rocket," is an American race car driver and journalist for Grassroots Motorsports magazine

Electric vehicle motors Their approaches highlight trade-offs between raw performance and everyday efficiency. Designers focus on power density (output per kilogram), torque per unit volume, efficiency across speeds, and production cost. [citation needed] Tesla switched the Model 3 rear motor to a permanent Electric vehicle motors convert battery energy into kinetic energy. They deliver instant torque, run quietly, and reach energy conversion efficiencies above 90 percent in many cases. Induction motors tolerate high temperatures and speeds well. They need no rare earth magnets. Engineers call them traction motors. Four companies stand out for advances: YASA (now part of Mercedes), Lucid Motors, Rivian (especially the 2026 R2), and Tesla

Tesla Cyberquad "Tesla brings Roadster, Cybertruck prototypes and The Tesla Cyberquad is an unreleased electric all-terrain vehicle (ATV) concept presented by Tesla, Inc. Observers have pointed to elements seen at the unveiling indicating that the Cyberquad prototype had been built by swapping the powerplant and plastics on a Yamaha Raptor. Concluding the presentation at the company's design studio in Hawthorne, California, CEO Elon Musk announced "one more thing", at which point the ATV was shown being loaded onto the back of the Cybertruck. Certain images from the rear suggest the vehicle also appears to have a powertrain borrowed from Zero Motorcycles. 2019. September 22, 2020. "Tesla Battery Day recap: Model S Plaid and a \$25,000 EV lead the big news". , at the Tesla Cybertruck's November 2019 unveiling e485dcebd6

Unveiled as a concept prototype in November 2017 and originally set to start production in 2020 with 10,000 units, the release has been delayed multiple times. In November 2025, Tesla CEO Elon Musk said the Roadster would begin production in 2027 or 2028. Musk said that higher-performance trim levels will be available beyond the base specification. e485dcebd6 == History == e485dcebd6

Tesla Model X A refresh of the Tesla Model X was introduced in 2021, offering a new "Plaid" performance model, along with a revised interior The Tesla Model X is a battery electric mid-size luxury crossover SUV built by Tesla, Inc. best-selling plug-in cars. In January 2026, Tesla announced that the Model X would be discontinued alongside the Model S. Developed from the full-sized sedan platform of the Tesla Model S, the vehicle uses distinctive falcon wing doors for rear passenger access. from 2015 to 2026 e485dcebd6

The company was incorporated in July 2003 by Martin Eberhard and Marc Tarpenning as Tesla Motors. Its name is a tribute to the inventor and electrical engineer Nikola Tesla. In February 2004, Elon Musk led Tesla's first funding round and became the company's chairman, subsequently claiming to be a co-founder; in 2008, he was named chief executive officer. The company began production of its first car model, the Roadster sports car, in 2008; the Model S sedan in 2012; the Model X SUV in 2015; the Model 3 sedan in 2017; the Model Y crossover in 2020; the Tesla Semi truck in 2022; and the Cybertruck pickup truck in 2023. e485dcebd6

Tesla Model S Top Gear. "The Tesla Model S Plaid is a 200mph, 1,020bhp electric car". BBC. Its various accolades include the Motor Trend Car of the Year Award in 2013. Archived from the original The Tesla Model S is a battery-electric, four-door full-size car that was produced by the American automaker Tesla from 2012 to 2026. August 15, 2024. Retrieved August 15, 2024. The automaker's second vehicle, the Model S has been described as one of the most influential electric cars in the industry. June 11, 2021 e485dcebd6

Since 2013, Tesla CEO Elon Musk has repeatedly predicted that the company would achieve fully autonomous driving (SAE Level 5) within one to three years, but as of July 2026, these goals are still to be met. The branding of Full Self-Driving has drawn criticism for potentially misleading consumers. Tesla vehicles currently require continuous driver supervision which does not constitute full self-driving capability. Previously... e485dcebd6 Electric motors powered the first road vehicles in the late 1800s. Early designs used direct current motors with lead-acid batteries. Ferdinand Porsche built a hybrid electric car in 1901. Production electric cars faded after 1920 as internal combustion engines improved. Modern interest returned in the 1990s. General Motors released the EV1 in 1996 with a single induction motor. Tesla launched its Roadster in 2008. That car used an alternating current induction motor derived from earlier aerospace work. The design proved rugged and avoided rare earth magnets. It set a benchmark for performance, but consumed more energy... e485dcebd6

Tesla Autopilot Tesla Autopilot/FSD is an advanced driver-assistance system (ADAS) developed by Tesla, Inc. that provides partial vehicle automation, corresponding to Tesla Autopilot/FSD is an advanced driver-assistance system (ADAS) developed by Tesla, Inc. As of February 2026, customers can subscribe to an optional Level 2 package called "Full Self-Driving (Supervised)" (FSD), which adds semi-autonomous navigation on nearly all roads, self-parking, and the ability to summon the car from a parking space. In May 2026, the National Highway Traffic Safety Administration (NHTSA) said that recent Tesla Model Ys are the first cars to pass the agency's new benchmark for advanced driver assistance systems. that provides partial vehicle automation, corresponding to Level 2 automation as defined by SAE International. All Tesla vehicles produced after April 2019 include Autopilot, which provides autosteer and traffic-aware cruise control e485dcebd6

Tesla is one of the world's most valuable companies in terms of market capitalization. Starting in July 2020, it has been the world's most valuable automaker. From October 2021 to March 2022, Tesla was a US\$1 trillion company, the sixth... e485dcebd6 Constructed mostly of aluminum, the Model S shares 30 percent of its components with the Model X—a crossover SUV that was introduced in... e485dcebd6 Tesla started developing the Model S around 2007 under the codename WhiteStar, with Henrik Fisker appointed as lead designer for the project. After a dispute with Elon Musk, Tesla's CEO, Fisker was replaced by Franz von Holzhausen who, by 2008, had designed the production Model S's exterior. Tesla unveiled a prototype of the vehicle in March 2009 in Hawthorne, California. In 2010, Tesla acquired a facility in Fremont, California, to produce the Model S, which was previously owned by General Motors and Toyota. Series manufacture of the car officially began at the Tesla Fremont Factory in June 2012. Tesla carried out the final assembly for European markets at its facilities in Tilburg, Netherlands, between 2013 and 2021. e485dcebd6 The trademark "Cyberquad" was registered in November 2019. During Tesla's 2020 Battery Day Event, Musk brought a prototype of the Cyberquad for investors... e485dcebd6 == Eligible cars == e485dcebd6 Initially, the ADAS used a combination of cameras capturing the visual spectrum, forward-facing radar, ultrasonic proximity sensors, and a

Mobileye EyeQ3 computer as Hardware 1, fitted to Model S vehicles starting in October 2014. After Mobileye ended its partnership with Tesla in 2016, Tesla began shipping cars equipped with an Nvidia Drive PX 2 computer and an increased number of cameras as Hardware 2. In 2019, Tesla shifted to a computer using a custom "FSD Chip" designed by Tesla, branded as Hardware 3. Starting in 2021, Tesla stopped installing the radar sensor in new vehicles, and the ADAS was updated to drop radar support. In 2022, Tesla announced it also would drop support for the ultrasonic sensors, moving the ADAS to an all-visual system. The most recent sensor and computer implementation is Hardware 4, which began shipping in... e485dcebd6
