by Oy Nautor AB in Finland, from 1992 until 2003, with 10 boats completed, but it is now out of production. 6953d1e7b0 Beds... 6953d1e7b0 Most modern beds consist of a soft, cushioned mattress on a bed frame. The mattress rests either on a solid base, often wood slats, or a sprung base. Many beds include a box spring inner-sprung base, which is a large mattress-sized box containing wood and springs that provide additional support and suspension for the mattress. Beds are available in many sizes, ranging from infant-sized bassinets and cribs, to small beds for a single person, to large queen and king-size beds designed for two people. While most beds are single mattresses on a fixed frame, there are other varieties, such as the murphy bed, which folds into a wall; the sofa bed, which folds out of a sofa; the trundle bed, which is stored under a low, twin-sized bed and can be rolled out to create a larger or second sleeping area; and the bunk bed, which provides two mattresses on two tiers as well as a ladder to access the upper tier. Temporary beds include the inflatable air mattress and the folding camp cot. Some beds contain neither a padded mattress nor a bed frame, such as the hammock. Other beds are made specifically for animals. 6953d1e7b0

The International Committee of the Red Cross recommends that cells be at least 5.4 m² (58 sq ft) in size for a single cell accommodation (one person in the cell). However, in shared or dormitory accommodations, it recommends a minimum of 3.4 m² (37 sq ft) per person, including in cells where bunk beds are used. == History == Nomenclature == Naming standards on different bed sizes and their corresponding actual measurements can vary across national standards. Examples of such nomenclature are names like "Single", "Full" or "Double", "Queen" or "King" size. Sometimes the naming standards are further divided by adding adjectives such as "Narrow", "Long", "Extra Long", "Wide", "Extra Wide", and so on, which also can vary across national standards.

Bedroom Beds and bedrooms are often devised to create barriers to insects and vermin, especially mosquitoes, and to dampen or contain light or noise to aid sleep and privacy. A typical Western bedroom contains as bedroom furniture one or two beds, a clothes closet, and bedside table and dressing table, both of which usually contain drawers. Beds range from a crib for an infant; a single

or twin bed for a toddler, child, teenager or single adult; to bigger sizes like a full, double, queen A bedroom or bedchamber is a room situated within a residential or accommodation unit, primarily used for sleeping. floors. In dwellings with multiple stories, bedrooms are often on the upper floors. Beds range from a crib for an infant; a single or twin bed for a toddler, child, teenager or single adult; to bigger sizes like a full, double, queen, king or California king) 6953d1e7b0

For example, a King size bed may measure (in width by length): 6953d1e7b0 In June 2005, construction of the Correctional Center was completed, adding nine housing units with 62 beds each and a medical housing unit that can accommodate a combination of 61 male and female inmates. This brings total capacity to 1,453 beds. 6953d1e7b0

Bed size Bed sizes may also vary depending on the design and ornamentation of the bed frame. 90 cm x 200 cm (35 in x 79 in), common single bed. Extended variants Standard bed sizes are based on mattress dimensions, which vary from country to country. Dimensions and terminology differ worldwide, as most countries maintain their own standards. for young people's beds/ bunk beds and double beds with two separate mattresses. Mattress and bedding sizes may not always correspond. In addition, two mattresses with the same nominal size may have slightly different dimensions due to manufacturing tolerances, padding, and support type 6953d1e7b0

Prison cell " In many A prison cell (also known as a jail cell) is a small room in a prison or police station where a prisoner is held. called single-celling or "single-bunking" (as in "bunk bed"). The practice of putting two persons to a cell is referred to as "double-bunking. Cells can be occupied by one or multiple prisoners depending on factors that include, but are not limited to, inmate population, facility size, resources, or inmate behavior. Cells greatly vary by their furnishings, hygienic services, and cleanliness, both across countries and based on the level of punishment to which the prisoner being held has been sentenced
